NOTICE TO STUDENTS

The Professorial Board supervises the courses of all new students. Before enrolment in classes a record of the proposed course of study, signed by the Chairman of the Professorial Board, or by the Chairman of one of the Faculties (of Arts, Science, or Law), must be in the hands of the Registrar. In the case of a student proceeding to one of the University degrees, this record shall state the complete course of study proposed for that degree; and subsequent departures (if any) from such proposed course will have to be similarly recorded.

New students should send in to the Registrar, **preferably before the beginning of term**, either

- (1) notification of the courses they have provisionally determined upon, or
- (2) request for advice upon their courses, accompanied by such relevant facts as may be available.

In case of (1) the matter will normally be dealt with by instructions posted on the College notice board. In case of (2) appointments will be made.

In planning provisional courses the Terms Regulations and the Timetable of classes must be carefully regarded.

TERMS REGULATIONS

1. The College year shall consist of two Terms: the First Term to begin towards the end of March and to end towards the end of June; the Second Term to begin about three weeks from the first day of July and to end in the last week of October.

2. The following are the subjects recognised in this College for keeping Terms:—(1) Latin, (2) Greek, (3) English, (4) French, (5) German, (6) Philosophy, (7) Education, (8) Economics, (9) Constitutional History and Jurisprudence,* (10) English History, (11) Pure Mathematics, (12) Applied Mathematics, (13) Physics, (14) Chemistry, (15) Biology, (16) Geology, (17) Geography (B.Com. only), (18) Law.†

3. To pass in any subject a student (unless exempted—see below) must attend the Lectures in that subject, must do the regular work of the class to the satisfaction of the professor (or lecturer), and must pass the prescribed examinations. A student shall not be considered to have fulfilled the attendance requirement in a subject if he has been absent from more than one-tenth of the lectures in the subject.

4. The following shall be the general regulations for keeping terms.

(a) To keep First Year Terms, a student must pass in two subjects.

(b) To keep Second Years Terms, the student must have passed the College examination in all the subjects he proposes to take for the first section of the degree at a stage corresponding to that of the University Examination.

(c) To keep Third Year Terms the student must have passed the College Examination in all the subjects he proposes to take for the Final Section of the degree at a stage corresponding to that of the University Examination.

5. Holders of Junior University and Senior National Scholarships may take a section of the University Examination for B.A., B.Sc., or LL.B., after keeping First Year Terms. To such scholars as intend to avail themselves of this privilege, the following special regulations shall apply:—

(a) To keep First Year Terms such a scholar must pass in three subjects (equivalent to the above requirements for Second Year Terms).

(b) To keep Second Year Terms for B.A. or B.Sc., such a scholar must pass in three subjects other than those in which he has kept First

*This group counts as a single subject in the Faculty of Arts, but First Year Terms in Law may be kept by passing in either of these subjects together with one other subject. After 1916 this group will count as a single subject in the Faculty of Law also.

†Terms may be kept in Law subjects only, by Scholars, as provided in paragraph (5) (b), but all LL.B. students must pass the Terms Examination in all the subjects of the First Division of the examination for LL.B.

Year Terms, and one of these must be a "repeated*" subject. To keep Second Year Terms for LL.B., such a scholar must pass in three subjects other than those in which he has kept First Year Terms, and these may be all Law subjects.

(c) To keep Third Year Terms for B.A. or B.Sc., such a scholar must produce a certificate of substantial progress in the subject of his special study.

6. Graduates in Arts and Science proceeding to qualify for a degree in Science or Arts in the manner provided for graduates who have had the degree of B.A. or B.Sc. conferred on them before the end of 1915 must, in order to be recorded as having kept one year's terms, have passed the College Examinations in such further subjects as they require for the University Examination at a stage corresponding to that of that Examination; and those proceeding to qualify under the regulation which requires the keeping of two year's terms:—

(a) To keep Fourth Year's Terms must pass in two subjects and (b) to keep Fifth Year's Terms must have passed the College Examination in all the subjects they require for the University Examination at a stage corresponding to that of that examination.

7. Students must notify to the Registrar, on or before the fifteenth day of August, the subjects in which they wish to keep terms; a "repeated" subject must be notified as such.

8. (a) Exemption from lectures is provided for under certain conditions [Univ. Cal., p. 16, par. III.].

(b) To keep terms, exempted students must pass the Annual College Examination in the requisite number of subjects, and all the above regulations shall apply to them except that of paragraph 3.

(c) The fee for the Annual Examination of any student exempted from attendance at lectures shall be one guinea for each subject in which he is examined, and if fully exempted a further fee of one guinea.

N.B.—In no case shall a fee be refunded. But if a candidate be prevented by sickness, or other sufficient cause, from taking the examination, the fee shall be credited to him for a future examination: provided that such credit shall not extend for more than two years. If, after payment of a fee, the candidate be removed to another College district, the fee shall be transferred to his credit at that College.

FEES

COLLEGE FEE:—Every student is required to pay a College Fee of ten shillings and sixpence per annum for general tuition.

Class fees may be paid in two instalments, one at the beginning of each term. Enrolment in a class shall be regarded as rendering the student liable for both instalments, provided that the second instalment may be remitted on application to the Council on the recommendation of the Professorial Board, in the case of a student who ceases to attend the lectures. Attendance at a class will be debarred if fees have not been paid after two weeks' lectures. Provided that a student may, with the consent of the Professor (or Lecturer), join a class for the first time at any stage of the year's work, on payment of the full fee (or first instalment thereof) in case of joining in the First Term, half fee in case of joining in the Second Term.

For class fees, see special class announcements.

*A subject "repeated" in accordance with the New Zealand University B.A. or B.Sc. Degree Statute counts as a separate subject for keeping terms.
