HISTORICAL NOTICE.

On the 23rd December, 1878, a Royal Commission was appointed to inquire into and report upon the operations of the University of New Zealand and its relations to the Secondary Schools of the Colony, and upon the best means of bringing secondary and higher education within the reach of the youth of both sexes. The Commission in its report, under date 9th July, 1879, among other things, recommended that the inequality in the educational institutions of the two islands should be removed by establishing, at the most important centres of population in the North Island, Colleges capable of supplying an education of the same standard as that provided by the University of Otago and Canterbury College, and proposed that the Government should invite the Legislature to make immediate provision for the establishment of two Colleges, one at Auckland and the other at Wellington.

For the maintenance of these two Colleges the Commissioners suggested that the Government should utilise the reserves set apart for the promotion of higher education in the Provincial Districts of Auckland and Wellington, and that the two Colleges should be respectively endowed with Crown lands sufficient to provide an immediate income to each amounting to £4,000 per annum; that, if this were not practicable, the deficit in each case should be made good by a pecuniary grant.

A College was established in Auckland by "The Auckland University College Act, 1882."

Nothing was done for Wellington until the year 1894, when an Act was passed entitled "The Middle District of New Zealand University College Act, 1894," which said "There shall be established in the city of Wellington a College to be connected with the University of New Zealand"; and provision was made for a governing body, to be called the Council, but no provision was made for any pecuniary grant or endowment. Certain members of the Council were appointed, but nothing could be done for want of funds.

In the year 1897, the Right Hon. R. J. Seddon, P.C., Premier of the Colony, introduced into Parliament the Victoria College Act; an Act, as stated in the preamble, "to promote Higher Education by the establishment of a College at Wellington in commemoration of the sixtieth year of the reign of Her Majesty Queen Victoria," the College being intended to embrace in its work the Provincial Districts of Wellington, Taranaki, Hawke's Bay, Nelson, Marlborough and Westland. The Act was passed on the

22nd December, 1897, the Council was formed, and the work of organisation was begun. The Act provides for the payment out of the Consolidated Fund of a grant of £4,000 a year, and out of this sum the Council was required to give six scholarships each year called "Queen's Scholarships," to persons of either sex under the age of 14 years upon the results of an examination under such conditions as the Council may prescribe. In 1903 an amending Act was passed providing for six Junior and four Senior Queen's Scholarships. In 1906 the College was relieved of the payment of these Scholarships. By the Education Act Amendment Act, 1907, the Queen's Scholarships were abolished. The Act of 1897 further set apart a parcel of land 4,000 acres in extent in the Nukumarū Survey District (Wellington Provincial District) as an endowment for the College.

The College was admitted as an institution affiliated to the University of New Zealand on the 23rd February, 1899.

The Council decided to begin by the appointment of four Professors for the Chairs of Classics, English Language and Literature, Chemistry and Physics, and Mathematics and Mathematical Physics, and the following were appointed:—Classics, J. R. Brown, M.A., St. Andrews and Oxford; English Language and Literature, H. Mackenzie, M.A., St. Andrews; Chemistry and Physics, T. H. Easterfield, M.A., Cambridge, Ph.D., Würzburg; Mathematics, R. C. Maclaurin, M.A., LL.D., Cambridge. These Professors arrived in the Colony at the end of March, 1899, and as soon as possible classes were organised and lectures begun.

In 1905, the College received from Parliament an additional annual grant of £2,000 for specialisation in Law and Science.

In 1914, the Victoria College Amendment Act was passed, by which it was enacted that the name of the College should in future be the Victoria University College. Changes were made in the constitution of the Council and of the Professorial Board. In the same year by an amendment to the New Zealand University Act an increase of £3,000 was made in the annual grant, and all the grants from the Government were consolidated into one annual grant of £9,000; further, the College was allotted a share of the National Endowment grant, part of which (amounting in 1919 to £1,880) comes direct from the Government, while a second part (amounting in 1919 to £940) is paid through the New Zealand University. Of this last sum £300 is set apart for Workers' Educational Classes.

In 1919, an amending Act to the New Zealand University

Act was passed, in which it was enacted that from April 1st, 1920, the annual grant to this College should be increased by £2,500.

In 1915, the Trustees of the late T. G. Macarthy made a grant of £10,000, for the purpose of establishing a School of Economics, to be called "The T. G. Macarthy School of Economics." The foundation of the Chair was, however, delayed owing to the war. In 1920 the Macarthy Chair was filled by the appointment of Professor B. E. Murphy, M.A., LL.B., B.Com.

In 1915, under the will of the late Sarah Anne Rhodes, the sum of £10,000 was left to the Council for the education of women. Owing to the absence of one of the Trustees, it has only lately been possible for the Council to come to an arrangement with the Trustees as to the method of expending this sum.

SITE AND BUILDINGS.

In 1900 an Act was passed whereby the College Council was empowered to acquire a site for the College buildings, being part of a town reserve situated on Salamanca Road, six acres in extent, and the Government provided £31,000 towards the cost of buildings. A portion of the buildings was erected, the foundation stone being laid by His Excellency Lord Plunket, K.C.V.O., on the 27th August, 1904. They were opened by His Excellency Lord Plunket on the 30th March, 1906.

In March, 1910, a further portion of the buildings was built. This wing contains two large class-rooms, and in the basement a men's cloak room, a women's common-room, and a large room in which light meals may be obtained during the College session.

In 1919, the Government made the College a grant for the completion of the north wing, the building of which is at present in progress. This wing will provide accommodation for the Library and the new School of Economics, besides private rooms for Professors, a new Women's Common Room and a new Tea Room. Space will thus be freed in the Arts Building, which will provide for a Men's Common Room, an extension of the office and extensions of the Geology, Biology and Physics Departments.

In 1920 the Government made a further grant for the erection of a South Wing. This wing will provide accommodation for the Physics and Geology Departments, and will complete the present block of buildings.

COLLEGE LIBRARY.

The College Library is maintained by an annual grant of £400 out of the College funds. At present it contains about 13,000 volumes, and subscribes for rather more than sixty periodicals.

WORKERS' EDUCATIONAL CLASSES.

In 1915, the Council, in co-operation with the Workers' Educational Association, established three classes in Wellington. The movement has now grown considerably, and in 1920 twenty-one classes were being conducted in different parts of the Victoria University district.

TERMS.

Any student who is matriculated to the University, whose name is on the books of an affiliated College, who has attended the prescribed courses in any subject and has passed the Examination prescribed in these courses at a standard corresponding to the University Examination, shall be deemed to have kept terms in that subject.

For keeping Terms in Physics, Chemistry, Botany, Zoology, or Geology the Practical Examination or performance of a practical course to the satisfaction of the instructor shall be deemed to be a part of the College Examination; and, unless specially exempted by the Science Faculty, a student presenting himself for an Examination in any of these subjects for the purpose of keeping Terms must do the practical work in that subject in the year in which he so presents himself.

The subjects in which the keeping of terms is necessary are:—All subjects for B.A., B.Sc., LL.B., B.Sc. in Home Science, M.B., Ch.B., B.D.S. Degrees, all the subjects of the First and Second Divisions of B.Com., all the subjects of Engineering Entrance.

ATTENDANCE.

To fulfil the attendance requirement in a subject a student must, except in cases approved of by the Professorial Board, attend not less than 90% of the lectures in that subject.

EXEMPTION FROM LECTURES.

Exemption from lectures is provided for under certain conditions (see Calendar, N.Z. University, 1920-21, p.—).

To keep terms in a subject an exempted student must pass in that subject at the annual College Examinations.

SUPERVISION OF COURSES.

The Professorial Board supervises the courses of all new students. Before enrolment in classes a record of the proposed course of study, signed by the Chairman of the Professorial Board, or by the Dean of one of the Faculties (of Arts, Science, or Law), must be in the hands of the Registrar. In the case of a student proceeding to one of the University degrees, this record shall state the complete course of study proposed for that degree; and subsequent departures (if any) from such proposed course will have to be similarly recorded.

Students whose work or attendance is unsatisfactory may be excluded from College classes for the remainder of the session, by the Professorial Board.

COLLEGE EXAMINATIONS.

Students, whether exempted or not, must notify to the Registrar on or before the First day of May, the subjects in which they wish to keep terms; an "advanced" subject must be notified as such.

ACADEMIC YEARS.

A student may sit for a section of a degree at the end of his first year but may not sit for his final examination until he has completed at least three years work to the satisfaction of the Professorial Board.

NOTE.—A student who is taking a subject at the Advanced Stage (under the New Statute) must pass in that subject in both years of the course prescribed.

FEES FOR EXEMPTED STUDENTS.

The fee for the Annual Examination of any student exempted from attendance at lectures shall be one guinea for each subject in which he is examined, and if fully exempted a further fee of one guinea.

N.B.—In no case shall a fee be refunded. But if a candidate be prevented by sickness, or other sufficient cause, from taking the examination, the fee shall be credited to him for a future examination: provided that such credit shall not extend for more than two years. If, after payment of a fee, the candidate be removed to another College district, the fee shall be transferred to his credit at that College.

The Chemical Laboratory is well equipped for all ordinary chemical operations. Students intending to take up Chemistry as a profession should work in the laboratory not less than eighteen hours weekly and study Mathematics, Physics, French and German.

A minimum attendance of 5 hours weekly is required from candidates for a Pass Degree in Chemistry.

Text-Books: 1st Year—Robertson and Burleigh: Qualitative Analysis; 2nd Year—Clowes and Colman: Quantitative Analysis; Cohen: Practical Organic Chemistry. 3rd Year—Findlay: Practical Physical Chemistry.

Students are encouraged in their 3rd and 4th years to take up research work in Inorganic, Organic, Physical or Technological Chemistry.

BOTANY AND ZOOLOGY.

Professor Kirk.

Fee for each subject £3 3s.; Laboratory Fee and Material £3 8s.

BOTANY.

It is essential that students should provide themselves with text-books, and should read fully and carefully. Every student should come to lecture with some ideas, and with notes as to the difficulties that his preliminary study has not removed. It is part of the duty of the Professor to help him with these difficulties.

In both lectures and laboratory work due regard will be had to the University syllabus, but work will not be confined to the syllabus.

Students that begin the University Course without any adequate training in Botany should take two years to reach the pass grade. In the time-table the lectures for the first year are marked J, those for the second year S. Those students that, with the consent of the Professor, treat the subject as a one-year subject will attend both sets of lectures.

Lectures: Junior—Monday, 4 p.m. (during first twelve weeks of the session), Tuesday 4 p.m., Wednesday 3 p.m., Thursday 4 p.m. (during first twelve weeks of session). Two hours laboratory practice.

Senior—Monday, 4 p.m. (after first twelve weeks), Monday, 5 p.m. Three hours laboratory practice.

Text Books.—It is obligatory to have Parker's Lessons in Elementary Biology, Bower and Vaughan's Practical Botany for Beginners, and one of the following: Strasburger's Text Book of Botany (3rd or later English edition); Miss A. S. M. Johnston's Botany, Mudge and Maslem's Class Book of Botany; or Dendy and Lucas's Introduction to the Study

of Botany. It is very desirable, indeed almost necessary, that Senior students at least should have Dendy's Evolutionary Biology and Cockayne's New Zealand Plants and their Story.

Instruments.—All students must be provided with the following instruments at least, a razor for section-cutting, a pair of mounted needles and a pair of forceps with fine points. It is very desirable that every student should have a pocket lens. It is necessary also to have a laboratory drawing book, with alternate pages ruled for notes.

Advanced and Honours Classes.—The times for these classes are not in all cases definitely fixed. There will generally be two lectures a week and at least one discussions class a week. It is necessary that students attending these classes should have Strasburg's Botany and Dendy's Evolutionary Biology.

Students of Botany, whether formally attached to the College or not, may obtain from the Professor permission to refer to the late Mr. T. Kirk's herbarium of New Zealand Flowering Plants, and to the late Dr. Knight's herbarium of Lichens (presented to the College by Mrs. Knight).

ZOOLOGY.

It is essential that students should provide themselves with text-books, and should read fully and carefully. Every student should come to lecture with some ideas, and with notes as to the difficulties that his preliminary study has not removed. It is part of the duty of the Professor to help him with these difficulties.

In both lectures and laboratory work due regard will be had to the University syllabus, but work will not be confined to the syllabus.

Students that begin the University Course without any adequate training in Zoology should take two years to reach the pass grade. In the time-table the lectures for the first year are marked J, those for the second year S. Those students that, with the consent of the Professor, treat the subject as a one-year subject will attend both sets of lectures.

Lectures.—Junior: Monday, 4 p.m. (during first twelve weeks of session), Wednesday, 4 p.m., Thursday, 3 p.m., Thursday, 4 p.m. (during first twelve weeks). Three hours laboratory work.

Senior: Monday, 3 p.m., Monday, 4 p.m. (after first twelve weeks), Friday, 4 p.m. Three hours laboratory work.

Text-Books.—It is obligatory to have Thomson's Outlines of Zoology, Marshall and Hurst's Practical Zoology and Marshall's Frog. It is highly desirable that every student should have also Dendy's Evolutionary Biology and Hewitt's House Flies and How they Spread Disease.

Advanced and Honours Classes.—The general note under Botany applies here also. Honours students must have Parker and Haswell's Zoology (2nd edition), and should consult the Professor about other books.

Students should supply themselves with the following appliances:—A note-book and a drawing book. Two pencils—one hard and one soft. Dissecting instruments—scissors, forceps, scalpels (2), mounted needles, seeker, razor with straight edge (better not hollow-ground), pocket magnifying-glass.

[As amended by the Education Act Amendment Act, 1907, the Queen's Scholarships Act, 1906, and the Victoria College Act Amendment Act, 1914.]

An Act to consolidate certain Enactments of the General Assembly relating to Victoria College.

[27th October, 1905.]

Be it enacted by the General Assembly of New Zealand in Parliament assembled, and by the authority of the same, as follows:—

THE COUNCIL.

4. The corporation shall act by a governing body, to be called "the Victoria University College Council" (elsewhere throughout this Act referred to as "the Council.")

5. The Council shall be constituted as follows:—

- (a.) A group of two members appointed by the Governor:
- (b.) A group of two members appointed by the Professorial Board of the College:
- (c.) A group of four members elected by the District Court of Convocation of the Victoria University District as defined by the New Zealand University Act, 1908:
- (d.) One member appointed by the Wellington City Council:

- (e.) A group of two members elected by the members of the Education Boards of education districts wholly or partly within the Victoria University District:
- (f.) One member elected by the governing bodies of the secondary schools as defined by section eighty-nine of the Education Act, 1908, in the Victoria University District:

- (h.) One member elected by those teachers in secondary schools and in day technical schools, as defined respectively by section eighty-nine of the Education Act, 1908, and by section sixteen of the Education Amendment Act, 1910, in the Victoria University District who are graduates of any British chartered University, or are holders of certificates of competency under section fifty-four of the Education Act, 1908.

6. (1.) Members appointed pursuant to paragraphs (b) and (d) of section five hereof shall be appointed by resolution passed at a meeting of the Board or Council making the appointment.

(2.) Members elected pursuant to paragraphs (c), (e), (f), (g), and (h) of the same section shall be elected in manner hereinafter appearing.

(3.) The first appointments and elections of members pursuant to the said section five shall be made within the first seven days of the month of June, nineteen hundred and fifteen, or as soon thereafter as may be convenient, and the members so appointed or elected shall come into office on the first day of July, nineteen hundred and fifteen:

Provided that no appointment or election shall be made under the provisions of paragraphs (a), (e), or (g) of the said section, save for the purpose of filling casual vacancies, until the month of June, nineteen hundred and seventeen.

7. (1.) For the purpose of election of members pursuant to paragraphs (c), (e), (g), and (h) of section five hereof the following provisions shall apply:—

(a.) The Registrar of Victoria University College, or such other person as the Council appoints, shall be the Returning Officer who shall conduct all elections of those members.

(b.) The Returning Officer shall prepare separate rolls of the persons who are entitled to vote

for a member or members pursuant to the said paragraphs (c), (e), (g), and (h), and shall enter in the respective rolls the name, occupation, and address of every person who possesses the necessary qualification entitling him to vote; provided that no person shall be entered on more rolls than one.

- (c.) Any person who possesses more qualifications than one shall be entitled to have his name transferred from one roll to another roll on which he is qualified to be enrolled at any time before the closing of the rolls as hereinafter mentioned:

Provided that a person who has had his name so transferred from one roll to another roll shall not be entitled to have his name transferred from the last-mentioned roll until after two years have elapsed since the date of the transfer to that roll, unless he has ceased to be qualified to have his name thereon.

- (d.) All rolls shall be closed at five o'clock in the afternoon of the fourteenth day immediately preceding the day on which an election is to be held and shall continue to be closed until the election is completed; and no name shall be entered on any roll while that roll is closed.
- (e.) Claims for enrolment shall be made and disposed of in accordance with regulations made by the Council.
- (f.) At every election the votes shall be given by sealed voting-papers, in the form prescribed by regulations made by the Council, delivered to the Returning Officer personally on or before the day fixed for the election, or forwarded to him by post or otherwise so as to reach him not later than that day.

(2.) For the purpose of the election of a member pursuant to paragraph (f) of section five hereof the following provisions shall apply:—

- (a.) The governing body of each secondary school shall be entitled to one vote for every hundred or part of a hundred pupils (exclusive of the pupils in any lower department) in average attendance for the year ending on the thirty-first day of December immediately preceding the election.

(b.) The votes of each such governing body shall be by resolution passed at a meeting of that governing body.

(3.) In any election to which this section refers the majority of votes shall decide the election, provided that if two candidates have an equal number of votes the Registrar shall (if necessary) determine the election by lot in the presence of the Chairman or other member of the Council.

8. (1.) No member of the Professorial Board shall be a member of the Council unless he is appointed a member of that Board pursuant to paragraph (b) of section five hereof.

(2.)
