DEPARTMENT OF BIOLOGY

Professor Kirk

Mr Palmer

Dr Newman

Students at all stages must provide themselves with text-books, and read fully and carefully, making notes on any special difficulties for discussion with the teaching staff.

In both lectures and laboratory work due regard will be had to the University syllabus, but work will not be confined to the syllabus.

Medical Intermediate students will fill the requirements for Biology by attending Zoology I.

BOTANY

It is a great advantage to students to have some knowledge of Chemistry, or to take Chemistry at the same time.

PRACTICAL WORK

STAGE I. Students will be required to attend in the laboratory for two periods of three hours each per week, as set out in the Timetable.

STAGES II AND III. Students will be required to attend for a minimum of seven hours per week. Of this period at least five hours must be spent during the presence of the teacher in the laboratory.

HERBARIUM. All students proceeding to Stage III in Botany for a degree course, must present during the *first* week of *third* term of their Stage III a satisfactory Herbarium illustrative of the New Zealand Flora; otherwise Terms will not be granted. The Herbarium must contain at least 90 specimens collected by the student and representing the various great divisions of the Plant Kingdom. The specimens should be mounted according to the international standards.

LABORATORY NOTEBOOKS. Laboratory work must be recorded in notebooks of an approved kind.

INSTRUMENTS. All students must provide themselves with the following instruments as a minimum: A razor for cutting sections; a pair of mounted needles; a pair of forceps with fine points; a pocket lens; a stout scalpel.

TEXT BOOKS

STAGE I. All students must have either Parker, *Lessons in Elementary Biology* or Dendy, *Evolutionary Biology* and either Smith, Overton and Others, *Text-book of General Botany* or Fritsch and Salisbury, *Plant Form and Function* or Strasburger, *Text-book of Botany*.

Among books that will be useful for reference are: Tansley, *Elements of Plant Biology*; Dixon, *Practical Plant Biology*; Bower, *Botany of the Living Plant* and Johnson, *Text-book of Botany*.

It is desirable that students should have Cockayne, *New Zealand Plants and their Story*.

Suitable books for students taking 'Botany for Medicine' are Tansley, *Elements of Plant Biology* and Fritsch and Salisbury, *Botany for Students of Medicine and Pharmacy*.

STAGES II AND III. Students must have Strasburger, *Text-book of Botany*. Eames and McDaniels, *Introduction to Plant Anatomy* and Sharp, *Introduction to Cytology* will be found useful for both Options (a) and (b).

The following books are suitable for Option (a) : Fritsch, *Structure and Reproduction of the Algae* ; Dangeard, *Traité d'Algologie* ; Gwynne-Vaughan and Barnes, *The Fungi* ; Smith, *Cryptogamic Botany*, Vols. I and II ; Eames, *Morphology of Vascular Plants, Lower Groups* ; Scott, *Studies in Fossil Botany*, Vol. I ; Bateson, *Mendel's Principles of Heredity*.

The following books are suitable for Option (b) : Chamberlain, *Gymnosperms, Structure and Evolution* ; Scott, *Studies in Fossil Botany*, Vol. II ; Rendle, *Classification of Flowering Plants*, Vols. I & II ; Barton Wright, *General Plant Physiology* or Raber, *Principles of Plant Physiology* ; Weaver and Clements, *Plant Ecology*.

CONDITIONS FOR TERMS &c.

STAGES II AND III : The Course of instruction for Stages II and III in 1939 will be Option (b).

Students attending the course of instruction in Option (b) who have not already gained terms in Chemistry I are very strongly recommended to take that subject concurrently with the course in Botany.

HONOURS : Students are reminded that satisfactory progress cannot be made unless at least about 30 hours per week for one year or 15 hours per week for two years is spent over and above that required for the theoretical studies.

ZOOLOGY

It is a great advantage to Zoology students to take Chemistry also.

Junior students should spend at least five, and senior students at least seven hours a week at practical work.

It is obligatory to have Thomson, *Outlines of Zoology*; Marshall and Hurst, *Practical Zoology*; Marshall, *The Frog* and either Parker, *Outlines of Biology* or Dendy, *Evolutionary Biology*. Students at the Advanced stages must have Parker and Haswell, *Text-book of Zoology*, but may substitute for Vol. I Borradaile, Eastham, Potts and Saunders, *Invertebrata*, and for Vol. II de Beere, *Vertebrate Zoology*. Haldane and Huxley, *Animal Biology* and Bourne, *Comparative Anatomy of Animals* are of great value. Students should consult the Professor about other books.

Junior students must provide themselves with a copy of the cyclostyled *Practical Notes for Zoology I*, obtainable at the College Office.

Students should consult the lecturer about instruments. The following appliances and instruments will be required: A drawing book with alternate pages ruled for notes; two pencils, one hard and one soft; dissecting instruments—scissors and forceps (two pairs of each, one large and one small); two scalpels (one large and one small); two mounted needles, seeker.

The College year consists of three terms.

MATRICULATION

To matriculate a student must pass the Matriculation Examination and make the following declaration : ' I do solemnly promise that I will obey the Statutes of the University, so far as they apply to me, and I hereby declare that I believe myself to have attained the age of sixteen years.'

No examination passed by any student before he has made this declaration can count towards the keeping of terms or the qualifying for a Degree.

The last day for making the declaration is June 1, provided that upon payment of a late-fee of £1 1s the declaration may be made not later than August 1.

PROVISIONAL MATRICULATION

The requirements for Provisional Matriculation and the regulations in connection with it will be found on page 28 of the *New Zealand University Calendar* for 1939.

In connection with the recommendation of the Professorial Board to the Senate for confirmation of Provisional Matriculation the Professorial Board of Victoria University College will in normal cases recommend confirmation for those students who have passed at the Annual College Examinations in at least two subjects. A student whose Provisional Matriculation has been confirmed in any year will have his matriculation antedated to the beginning of that year and will be credited with terms in those subjects in which he has passed.

SUPERVISION OF COURSES

The Professorial Board supervises the courses of all new students. Before enrolment in classes a record of the proposed course of study, signed by the Principal, or by the Dean of one of the Faculties of Arts, Science, Commerce or Law, must be in the hands of the Registrar. In the case of a student proceeding to one of the University degrees, this record shall state the complete course of study proposed for that degree ; and subsequent departures (if any) from such proposed courses must be similarly recorded.

In general no examination will be held nor terms granted except in subjects taught in the College (see list above) ; if, however, a student has special reasons for taking subjects such as Music, Maori, Sociology, which are not taught at the College, the Professorial Board may grant permission and will in that case arrange for an examination.

STUDENTS ATTENDING LECTURES

STUDENTS NOT ATTENDING LECTURES

The University regulations provide

' That any student who in the opinion of the Professorial Board of a Constituent College is prevented from attending lectures, or who objects on grounds of religious scruples (whereof the evidence shall be satisfactory to the Chancellor) shall as far as is shown to be necessary be exempted from attendance at lectures.' - (e) Pass in the subject at the Annual College Examinations.

An additional fee of £1 1s is required from exempted students who desire to take an Oral Examination in a modern foreign language.

No candidate shall communicate direct with the examiner. Communications with regard to examinations must be made through the Registrar.

LISSIE RATHBONE SCHOLARSHIPS

The Lissie Rathbone Scholarships were established in 1925 by the Trustees of her will, she having bequeathed one half of her residuary estate for such Charitable, Educational or Religious objects as the Trustees should select. The Trustees have allotted £3,000 to Victoria University College, the income from which is to be applied to Scholarships.

In pursuance of powers vested in the Council by the Trustees the following regulations are prescribed to govern the award and tenure of the Scholarships in this University College :

1. There shall be offered in each year one or more Lissie Rathbone Scholarships, as the funds will admit.
2. Election to the Scholarships shall be made by the Council of the Victoria University College.
3. The annual value of each Scholarship shall be not less than £40.
4. The tenure of each Scholarship shall be for three years, terminable however at any time if the Council, having received from the Professorial Board an unfavourable report of the conduct or progress of the scholar, shall so determine.
5. Candidates for each Scholarship
 - (i) Must not be matriculated students of the University

- (ii) Must be under nineteen years of age on the first day of December immediately preceding the date of the award of the Scholarship
- (iii) May be of either sex
- (iv) Must have been resident in the Victoria University College District for one year on the first day of December in the year in which they enter

NOTE: '*Residence*' for the purpose of this clause applies to the candidate's home and does not apply to the school he is attending.

- (v) Must state their willingness to pursue as internal students of Victoria University College a course for a degree within the award of the New Zealand University from time to time (subject to such regulations as may be consistent with the object of the Scholarship) which may be selected by such scholar, his parents or guardians.

6. Each Scholarship shall be awarded upon examination for excellence in the subjects of English and History. Provided that the Council shall not be bound to award the Scholarship to the candidate obtaining the highest number of marks in such subjects, but may in its discretion take into account the financial circumstances of the scholar, his parents or guardians.

7. The examination in which the award shall be made shall be the examination presented by the University of New Zealand for the award of its Entrance Scholarships, the examination papers used being those set in English and History for that examination. If, however, there shall at any time cease to be an Entrance Scholarship examination, or if there shall cease to be examination papers set in either English or History for the Entrance Scholarships, the examination in which such award shall be made shall

be such other examination in English and History as the Council may from time to time appoint.

8. This Scholarship shall not be tenable with a University Entrance Scholarship. No candidate shall be awarded a Scholarship whose aggregate marks do not reach 50 per cent. of the possible total.

9. Candidates for the Lissie Rathbone Scholarships need not be candidates for an Entrance Scholarship to the University.

10. In the event of the accumulated earnings of the gift being in excess of the amount required for scholarships awarded under Clause I, the Council may either grant boarding allowance to any scholar needing it, or make a grant to any student, who, though he or she has not qualified in the Entrance Examination in the subjects prescribed for the Scholarship, has obtained at the College examinations of his first year a high class in the two subjects, English and History. In the event of the accumulated earnings of the gift proving at any time insufficient for all or any of the purposes above set forth the Council may adjust the annual value of any scholarship or the tenure thereof as the Council shall see fit from time to time.

11. Every candidate for the Scholarship shall send notice of his or her candidature on the prescribed form not later than 1 October. Entries shall be made in duplicate, one copy, accompanied by entry fee 10/6, to be sent to the Registrar of the University of New Zealand, and the other copy to the Registrar, Victoria University College; provided that, if the candidate is also a candidate for a University Entrance Scholarship, the entry fee of 10s 6d is not required.

NOTE: Late entry is allowed up to 22 October on receipt of late fee £2 2s.

Forms of entry may be obtained on application to the Registrar, Victoria University College.

12. Payments shall be made in four equal instalments, which shall be payable towards the end of March, the end of May, the end of July, and the end of September. Payments shall be subject to the recommendation of the Professorial Board.

13. In cases approved by the Council scholars may be permitted to transfer to another University College.

HISTORICAL NOTICE

VICTORIA UNIVERSITY COLLEGE was the last of the four main constituent colleges of the University of New Zealand to be established. It thus completed, apart from special provision for agricultural teaching, and within thirty years of the foundation of the first college, the general structure of the country's institutions for university work. Otago University was founded by a provincial ordinance of 1869, and was followed by the University of New Zealand set up by the general Legislature under the New Zealand University Act of 1870. The intention of the Legislature was that the two universities should coalesce, but this proved impracticable, and it was not till after many negotiations that Otago University agreed to abandon its independent status and affiliate to a purely examining university. This University, planned on the model of the University of London, was provided for by a second act, the New Zealand University Act (1874. To it were affiliated not only the University of Otago and Canterbury College (also founded and endowed by a provincial ordinance, in 1873) but a large number of secondary schools all over the Colony which were prepared to give instruction of university standard, undergo inspection by the University, and present candidates for its examinations. But all safeguards, such as inspection, broke down, and within a few years grave abuse of the system existed. Despite this situation, however, the University Senate thought both to maintain the standard of its degrees, and to secure universal respect for them, by excluding university teachers from examining, except for University entrance, and before the end of the first decade had arranged for all other examinations to be carried on from Great Britain.

Discontent, however, was widespread over the Colony, not least among the professors of the two institutions of university rank. Driven by this discontent the Government, at the end of 1878, set up a Royal Commission to report upon the operations of the University and its relations with the secondary schools, 'and upon the best means of bringing secondary and higher education within the reach of the youth of both sexes.' The Commission made its main report regarding the University in July 1879, supplying a draft Bill which incorporated its recommendations in the following year. It recommended that the system of affiliation as it then existed should be abolished, and that two further university colleges should be immediately set up, at Auckland and Wellington, with sites and buildings provided by the Government and endowment in land or money of £4,000 each per annum. It also recommended that the four resulting colleges should not be affiliated, but should form a federal University, the examinations of which should be conducted in the Colony, and ordinarily by the teachers of the University. 'Our desire is,' added the Commissioners, 'that each college may acquire a marked individuality, such as to demand recognition in the form of the examinations, and to secure for it a special reputation, which may at some future day be the foundation of its success as a separate and independent University.'

Unfortunately this report was made just at the outset of the great depression of the 80's, so that there were added to natural inertia what seemed to be sound economic reasons for doing nothing. Nevertheless a college was established in a small way at Auckland by the Auckland University College Act, 1882, and by 1887 the old system of affiliation of secondary schools had disappeared.

It was made clear that only university colleges could henceforth be affiliated. But nothing was done for Wellington—though the need there was demonstrably as great as that in any other part of the colony—until in 1887 Sir Robert Stout, then Premier, introduced his ‘Wellington University College Bill,’ to found a college serving the Wellington, Hawke’s Bay and Taranaki districts. This Bill handed over the Government departments of science and the Colonial Museum and their staffs to the new college, and made Sir James Hector, the Director of the Geological Survey, who was already Chancellor of the University, its Warden; £1,500 extra per annum was to be granted. It was Stout’s hope that the Wellington college, being at the seat of government and of the Court of Appeal, might specialise in the teaching of law, political science, and history, as well as in some departments of science. The Bill passed the House of Representatives, but was shelved by the Legislative Council. A new ministry coming into office in 1888, the matter lapsed for seven more years, in spite of the constant urgings of the University Senate and Court of Convocation. In 1894 Stout again came forward with a ‘Middle District of New Zealand University College Bill’—the Middle District now comprising not merely Wellington, Hawke’s Bay and Taranaki, but Nelson, Marlborough and Westland as well. No provision could be made in a private member’s bill for the expenditure of money, and though the Bill was finally passed and the Government even appointed certain members of a college council, no further step was taken. The only reserves ever set apart in the Middle District for the endowment of university education were in Taranaki.

The final step was taken by Mr Seddon, the Premier, on his return from the Diamond Jubilee celebrations. His

Victoria College Act, passed on 22 December 1897, founded the College 'in commemoration of the sixtieth year of the reign of Her Majesty Queen Victoria.' It was to be a Liberal foundation, bringing university education within the reach of the working classes through direct contact with the primary schools; to ensure ultimate government control any land granted to the College was to remain vested in the Crown, and the table of College fees was subject to Crown approval. The relation of the College to the schools was fixed by the establishment of a system of 'Queen's Scholarships.' These scholarships were to be six in number, to be awarded to children of either sex under the age of 14 years on the results of an examination conducted by the College Council, which children were then to receive two years of secondary and three years of university instruction. The scholarships were payable out of the annual government grant to the College of £4,000; this grant, apart from the prospective income from a parcel of land of 4,000 acres reserved by the Act in the Nukumarū Survey District, and from fees—which were made exceptionally low—was the College's sole income. To add democratic to government control, the governing body of the College, the Council, was to consist of three members appointed by the Governor-in-Council, three elected by the members of the General Assembly resident in the University District, three elected by graduates of the College, either by examination or *ad eundem*, when their number reached thirty (until then by all graduates in the district with a British University degree), three by certificated school-teachers, three by Education Boards, and one by the Professorial Board of the College (no professor or lecturer being eligible for election). The first Chairman of the Council was Mr J.

R. Blair (1898-9) ; he was followed by Sir Robert Stout (1900-01).

As an initial step, the Council decided to found four chairs, and the following professors were appointed : *Classics*, John Rankine Brown¹; *English Language and Literature*, Hugh Mackenzie²; *Chemistry and Physics*, Thomas Hill Easterfield³; and *Mathematics and Mathematical Physics*, Richard Cockburn Maclaurin⁴. The College was affiliated to the University in February 1899 ; early in that year the four professors arrived, and as soon as possible classes were organised and lectures begun. In the absence of a proper building the Council was offered by the Government the Premier's residence in Tinakori Road, then vacant ; but this being thought unsuitable, arts classes were held in the Girls' High School, Pipitea Street, after school hours, and science classes in the Technical School in Victoria Street. The number of students in 1899 was 115, plus 9 exempted students.

On the basis thus laid the College as it exists at present was fairly steadily built up, though not without controversies and certain unhappy experiences. Additional chairs were founded from time to time, as follows : Modern Languages 1902, Biology 1903, Law (two chairs) 1906, Mental and Moral Philosophy 1907, Physics (separated from Chemistry) 1909, Economics (T. G. Macarthy Chair) 1920, Education 1920, History 1921, Geology 1921, Agriculture 1925-27, Political Science 1938 ; while, mainly

in the 1920's and later, the separate departments were strengthened by the appointment of full-time, and in certain cases part-time, lecturers.

The governing body of the College was altered by the Victoria College Amendment Act, 1914, to comprise two members appointed by the Governor-in-Council, two appointed by the Professorial Board, one appointed by the Wellington City Council, and members elected as follows : Four by the District Court of Convocation, two by members of Education Boards, one by the governing bodies of secondary schools, two by primary school-teachers, one by teachers in secondary and day technical schools. Under the Victoria University College Act, 1933, one of the representatives of the Professorial Board was to be the Principal, whenever appointed. Student representation on the Council was provided for in 1938, by a section of the Statutes Amendment Act, which added a member to be appointed by the Executive of the Students' Association. By this Act, also, the Council was freed from the necessity of having its by-laws approved by the Governor-General.

THE BUILDINGS

For some time after the passing of the Victoria College Act there was considerable argument over the provision of a site for a College building, which was terminated, not entirely to the satisfaction of well-wishers of the new institution, by the passing of an act (the Victoria College Site &c. Act) in 1901, which empowered the Council to acquire part of a town reserve on Salamanca Road—six acres of hill, carrying with it a magnificent view and the certainty of great expense in development. The Government made a grant of £31,000 towards the cost of building, and the first portion of the present structure, designed by Messrs Penty & Blake, was opened on 30 March 1906 by

Lord Plunket, then Governor of the Colony. A further portion, forming a wing at the rear of the Arts Building, was completed in March 1910. In 1919 the Government made a grant for the north wing, thus providing new and much-needed accommodation for the Library, as well as additional class-rooms, a Women's Common Room and a Tea Room. Into the wall of this wing, just outside the entrance, was built a stone for a memorial of those students of the College who had died in the Great War. They are also commemorated by the stained glass window and brasses in the Library, which were unveiled as part of the Silver Jubilee celebrations of 1924. The south wing was provided for by another Government grant made in 1921, to provide further accommodation for the science departments. This completed the buildings until the erection of the new Administration and Biology Blocks in 1937-9, also paid for by the Government through a grant of about £50,000; these last portions were designed by Messrs W. Gray Young and Francis H. Swan. The wooden gymnasium was built by public subscription in 1909, the tennis courts below being excavated by the students themselves in 1905.

FINANCE

The College has virtually no endowment in land, and none in money that is available for general purposes. The benefit of revenues derived from the Opaku Reserve in Taranaki, to which it has laid claim, was by the Taranaki Scholarships Act, 1905, confined to the youth of Taranaki, who may be granted 'Taranaki Scholarships' on the results of the University Entrance Scholarship examination. Nearly all university activity in the Victoria University District therefore has depended and depends on Government finance, either through statutory grants or grants for

special purposes. The early Queen's Scholarships crippled the College financially in its first years ; an amending act of 1903 provided for six Junior and four Senior Scholarships of this type, but in 1906 the College was relieved of their payment, and in 1907, by an amending act to the Education Act, they were abolished. £4,000 per annum was obviously not enough for the administration of a university college, even if it had not been expanding, as this one was, and in 1905 an additional annual grant of £2,000 was instituted, for 'specialisation in Law and Science'—though, in reality, such specialisation does not seem to have been expected. A further increase of £3,000 was made in 1914 by the New Zealand University Amendment Act of that year, which readjusted the finances of all the colleges, plus a share of the 'National Endowment' amounting to upwards of £1,900. This Act consolidated all the grants apart from that from the National Endowment into a single annual grant of £9,000, which was again increased (from 1 April 1920) by the New Zealand University Amendment Act, 1919, by £2,500—of which £850 was a special grant for a chair of Education. A short act amending the College Act in 1923 gave the Council power to levy its own class fees without the previous approval of the Governor-in-Council. Still another University Amendment Act, in 1928, increased the statutory grant, apart from the special Education grant, to £11,750. From this point the grant receded, as the Government instituted economies in the Depression ; in 1931 it was reduced to £9,431 18s., and the grant for the chair of Education was withdrawn ; in 1932 it became £7,350 and was made no longer statutory, but subject to annual vote. In 1934 it was increased to £7,800, in 1935 to £10,145 and later £12,166, and in 1936 to £14,320. In 1938, as the result

of discussion on the relation of the University to the Public Service, the Government decided to make a new annual grant of £2,000, to found a Department of Political Science and Public Administration, thus in some sort fulfilling the wish expressed by Sir Robert Stout as long ago as 1886.

One partly endowed chair exists, the T. G. Macarthy Chair of Economics, which owes its origin to a grant of £10,000 made by the Trustees of the late T. G. Macarthy in 1915; owing to delay caused by the War, the chair was not actually founded till 1920. A chair of Agriculture was endowed by a gift of £10,000 from Sir Walter Buchanan in 1923, and filled in 1925. Auckland University College, however, had almost simultaneously founded a School of Agriculture, and both Colleges agreeing to join in founding the Massey Agricultural College at Palmerston North in 1927, the income derived from the Buchanan Trust funds was thenceforth made over to the new College, to which the chair was also transferred. The sum of £10,000 was also, in 1915, left to the College under the will of Sarah Anne Rhodes, to provide for the education of women; in 1921 the Council arranged with the Trustees to devote the income to the fostering of Home Science, through the institution of a Sarah Anne Rhodes Fellowship or Scholarship; in 1930 the regulations were altered to provide for a Travelling Fellow and/or a Lecturing Fellow. Monetary gifts and benefactions have provided a number of other scholarships of varying value, for both men and women students⁵. Between 1933 and 1937 the Carnegie Corporation of New York made generous allocations to the Library, in money or in kind, of \$32,500. The greatest benefaction ever received by the College, how-

ever, was the £77,500 left by Mr William Weir in 1926, to provide and maintain a hostel for men students.

HOSTELS

Great need had always been felt of hostels, both as an aid to the corporate life of students and as a solution to the problem of getting adequate board and lodging in Wellington, and as a Government subsidy was by statute payable on voluntary contributions to the University or its Colleges, the Weir Bequest seemed of even greater value than it actually was. Plans were therefore drawn up on a large scale by Messrs W. Gray Young and Francis H. Swan for a building on a good site near the College. A University Amendment Act of 1928, however, limited the Government subsidy on any bequest to a maximum of £25,000, and with the coming of the depression the Government refused to pay any subsidy at all. This caused substantial modifications of the plans, even after the foundations had been laid, and the completion of the structure had to be indefinitely postponed. Weir House was opened by the Governor-General, Lord Bledisloe, on 6 March 1933. It accommodates 88 students. The first Warden was Dr I. A. Henning; Miss I. K. Irvine was appointed Matron.

No similar large-scale provision for women students has yet been attainable. The generosity of the Society of Friends in 1915 provided a specially-built hostel for Training College students, where those who were students of both institutions could find accommodation; but when the Training College was closed during the depression this hostel was also closed. A valuable beginning was made in 1909 by the Women Students' Hostel Society, which, though not officially connected with nor under the control of the College, has carried on since that date Victoria

House, 282 The Terrace, with accommodation for 33 students. This Society in 1938 acquired a second house, 216 The Terrace, which is similarly maintained, accommodating 15. There exists still, however, a considerable problem, which urgently needs solution.

GENERAL DEVELOPMENT

In spite of the terms of the original Victoria College Act, 1897, and in spite of the fact, also, that its full-time students were always in a small minority, the College from the first built up a fairly vigorous and independent corporate life. Its independence and vitality were shown in the University Reform movement of 1908-14, of which professors of the College were among the leaders, supported strongly by their own students. So far as the College was concerned, this resulted in certain changes in the constitution of the Council, giving the professors direct representation thereon (the Victoria College Amendment Act, 1914), and in larger Government grants (the New Zealand University Amendment Act, 1914). Strong, though unsuccessful, resistance also was shown to the public outcry for the victimisation of a professor of German blood in 1915; in the War 620 students and old students served with the Forces, and 150 sacrificed their lives. During and after the War the movement for University reform was carried on, both by the Board of Studies set up by the University Amendment Act, 1914, and by University teachers, mainly of Victoria and Canterbury Colleges. This movement centred round the demand for the reform of the examining system by the abolition of examinations conducted from abroad, as recommended by the Royal Commission of 1879; round the distribution of 'special schools,' in which this College was not directly interested to any great extent; and round the later de-

mand for the creation of four separate universities. The upshot was the second Royal Commission on the University, which reported in 1925 in favour of the creation of a federal system as a transitional measure of indeterminate duration. Such a system was established, very imperfectly, by the New Zealand University Amendment Act, 1926, and succeeding Acts ; under the 1926 Act the College became in status a constituent college of a federal, and no longer merely an affiliated college of an examining, University. Its internal administration was made more rational by the appointment in 1938 of a Principal, provided for by the consolidated Victoria University College Act, 1933, but postponed pending the College's emergence from the period of straitened finance. Professor T. A. Hunter became the first Principal.

Student organisation, and student thought on the problems of the College and the University, are practically coeval with the College. The 'Victoria College Students' Society' was founded on 6 May 1899 at a meeting held at the Girls' High School. A new constitution was passed in 1903 and the name of the Society altered to 'Students' Association'. It was the Association which in this year moved for the acquisition of a coat-of-arms for the College ; it raised money vigorously towards the cost of the College buildings, and in other ways played a great part in the critical formative years of the corporate body. *The Spike, or Victoria University College Review*, was first published in 1902. *The Old Clay Patch*, a collection of verse by students, appeared in 1910, and a second edition in 1920. The Debating Society was founded in 1899, and round the central association rapidly grew most of the College clubs now in existence.

ADULT EDUCATION

Adult Education has been provided for, to the best of the College's ability, since 1915, when the Workers' Educational Association, then at the outset of its work in New Zealand, established three tutorial classes in Wellington. The movement grew on lines rather different from the English model, being limited by inadequate financial resources (its main recourse, in spite of support from public bodies, being to Government grants) and the consequential small extent to which it could employ tutors for the wide country districts, both in the North and in the South Island (Nelson and Marlborough). It has therefore had to work in the country largely by means of 'box courses', and 'discussion courses' carried on by post, a tutor-organiser covering what ground he could. In 1932 the Government grant was withdrawn altogether, and though in 1934 the movement was saved by a tapering grant from the Carnegie Corporation, the Association could no longer maintain a full-time tutor-organiser. With the return of the Government grant in 1936 it was possible to extend the work once more, and first one tutor-organiser for country work was appointed in 1936, and then a second in 1938. Two additional grants were made by the Govern-

ment in 1937, one specifically for tutorial work in Public Works Camps. Meanwhile other agencies for adult education had come into being, and it was felt that some co-ordination of effort and expenditure was necessary. At the request of the Minister of Education, the Hon. P. Fraser, a committee was set up by the University Senate to go into the matter, and as a result of its report there was formed in 1938 a Council of Adult Education, through the agency of which it was intended to put the work of the W.E.A., among other organisations, on a new and much more satisfactory basis all over the country.

SEAL AND ARMS

The College seal is lozenge shaped with a representation of a figure of Queen Victoria standing crowned and sceptred with the legend 'Seal of the Victoria University College, Wellington, New Zealand, 1897.' The motto is *Sapientia magis auro desideranda*.

The Arms are vert on a fesse engrailed between three crowns or, a canton azure charged with four estoilles argent (in the form of the Southern Cross). The Crest is that of the Duke of Wellington.

VICTORIA UNIVERSITY COLLEGE STUDENTS' ASSOCIATION (INC.)

The Students' Association is the official link between the students of the College and the College authorities. All students of the College are automatically members of the Students' Association. In addition, all graduates of the University of New Zealand, and all persons who have attended lectures at any University or University College for at least one year are, subject to payment of the requisite fee, entitled to membership of the Students' Association.

The objects of the Students' Association are to deal with all matters in which the students as a body are interested; to promote sports and social activities amongst its members; the control of official publications; to conduct the Easter Inter-University Tournament and the annual Capping Celebrations; and to conduct all other student activities designed to promote student interest and welfare.

Student activities are controlled by the Students' Association Executive, an annually elected body of twelve members of the Association. The various cultural, sporting, social and intellectual interests of the student body are catered for by Clubs and Societies affiliated to the Students' Association.

Full information as to any matters affecting the Students' Association may be obtained on application to the Executive Room.
