English may be taken either as a half subject with another language or as a single subject. Students offering English as a single subject for Honours must *either* have taken another language to Stage III in their B.A. *or* have taken one language to Stage II and another to Stage I. Candidates should make themselves familiar with the full prescriptions in the *University Calendar*. All students

The Professor conducts a weekly seminar in alternate years on Milton or Shakespeare (1945: Shakespeare). Tuition in the various options will be arranged to suit the needs of individual candidates. Full reading-lists are available.

DEPARTMENT OF POLITICAL SCIENCE AND PUBLIC ADMINISTRATION

Professor Lipson

B.A. COURSES

(For the Diploma in Public Administration see page 88)

The new syllabus in Political Science for the B.A. comprises three units and covers three years' work. The first unit consists of *either* History of Political Theory *or* Comparative Political Institutions. Students may select whichever of these subjects they prefer as Political Science I. They may then proceed in a subsequent year to take as Political Science II the alternative not chosen for Political Science I. After both of these units have been taken, students may advance to Political Science III which deals with Modern Democracies.

Those who have already passed the University examination in Political Science I under the *old* syllabus may now take either History of Political Theory or Comparative Political Institutions as Political Science II.

Undergraduates in the Arts Faculty who desire to do Political Science would be well advised to combine it with such kindred subjects as Economics, History, and Philosophy or Psychology.

Exempted students should consult the Professor at the commencement of the academic session.

HISTORY OF POLITICAL THEORY

Lectures on Mondays, Wednesdays, and Fridays at 5 p.m. to 6 p.m.

The course studies the development of different political theories and ideas about government. It includes a survey of ancient Greek and Roman ideas, of medieval thought, of the doctrines of the nation-state and the rise of democracy, and of contemporary issues. It emphasises the relationship of each theory to the historical circumstances of the country and the period in which it was propounded. The University syllabus requires an examination of two papers: one on political theories from Plato to Rousseau, the other on the theories from Burke to the present day.

Recommended Books: Sabine, G. H., *History of Political Theory*; Coker, F. W., *Recent Political Thought*; Mayer, J. P., *Political Thought: the European Tradition*; and original texts of the great classics.

COMPARATIVE POLITICAL INSTITUTIONS

Lectures on Tuesdays and Thursdays at 5 to 6 p.m., and on Wednesdays at 6 to 7 p.m.

This is a survey course designed to compare leading examples of democratic and non-democratic governmental systems. Throughout this course the emphasis is placed, not on the theories and ideas about government, but on the systems and institutions as they actually operate. Among the countries to which particular attention is paid

are Great Britain, the United States, France, Switzerland, the Soviet Union, Germany and Italy. The University syllabus requires an examination of two papers: one devoted to democratic States, the other to non-democratic.

Recommended Books: Lindsay, A. D., *The Essentials of Democracy*; Laski, H. J., *Parliamentary Government in England*; McBain, H. L., *The Living Constitution*; Webb, S. and B., *Soviet Communism*; Finer, H., *Mussolini's Italy*; Marx, F. M., *Government in the Third Reich*, etc.

MODERN DEMOCRACIES

Lectures on Mondays, Tuesdays and Thursdays at 4 to 5 p.m. and on Fridays at 5 to 6 p.m.

The third stage of teaching in Political Science carries to a more advanced level the study of democratic governments already commenced in the course on Comparative Political Institutions. Great Britain and the United States are the two countries designated by the University syllabus for special analysis, and the traits of these two democracies will be compared and contrasted in some detail.

Lectures will be accompanied by seminars with plentiful opportunities for discussion.

Recommended Books: Jennings, W. I., *Cabinet Government*; Bryce, J., *The American Commonwealth*, etc.

DEPARTMENT OF ZOOLOGY

Professor Richardson

DEPARTMENT OF BOTANY

Dr Newman

BOTANY

A knowledge of Chemistry is of great advantage to students of Botany, who should either have taken or be taking Chemistry. This applies particularly to those intending to advance Botany.

STAGE I. Lectures : Monday, Wednesday and Friday at noon, Wednesday at 4 p.m. (General Biology).

Practical work : Students will be required to attend in the laboratory for two periods per week. The laboratory periods are Wednesday 6.30 p.m. to 9.30 p.m., and Thursday, 10 a.m. to 1 p.m.

STAGES II AND III. Lectures : Monday, Wednesday and Friday at 3 p.m.

Practical work : Students will be required to work for a minimum of seven hours per week. Of this time at least five hours must be spent during the presence of the teacher in the laboratory. Laboratory periods from which these five hours may be chosen are tentatively fixed as follows Tuesday, 10 a.m. to 1 p.m., Wednesday, 4 p.m. to 6 p.m., Thursday, 2 p.m. to 4 p.m.

HERBARIUM. All students proceeding to Stage III in Botany for a degree course, must present during the *first* week of *third* term of their Stage III a satisfactory herbarium illustrative of the New Zealand Flora ; otherwise terms will not be granted. The herbarium must contain at least 90 specimens collected by the student and representing the various divisions of the Plant Kingdom. The specimens should be mounted and labelled according to international standards.

INTERMEDIATE. Students requiring the Certificate in Botany in connection with Zoology I for the Intermediate examination for Agriculture, Forestry and Medicine and for Home Science will, during the Second Term, attend a course of lectures and laboratory work in Botany. The lectures will be given on Fridays at 5 and the laboratory period will be on Tuesdays, from 2 to 5. A theoretical and a practical examination will be held to determine the issue of the certificate.

LABORATORY NOTEBOOKS. Laboratory work must be recorded in notebooks of an approved kind. A good quality H pencil will be needed for drawing.

INSTRUMENTS. All students must provide themselves with the following instruments as a minimum : A razor for cutting sections ; a pair of mounted needles ; a pair of forceps with fine points ; a pocket lens ; a stout scalpel ; a small camel hair brush. Scissors and blunt forceps will be useful.

TEXT BOOKS

STAGE I. All students must have either Parker, *Lessons in Elementary Biology* or Dendy, *Evolutionary Biology* and either Smith, Gilbert and others, *Text-book of General Botany* or Fritsch and Salisbury, *Plant Form and Function* or Strasburger, *Text-book of Botany*, or Bower, *Botany of the Living Plant*.

Among books that will be useful for reference are : Tansley, *Elements of Plant Biology* ; Carey, *Botany by Observation* ; Priestley and Scott, *An Introduction to Botany*.

It is desirable that students should have Cockayne, *New Zealand Plants and their Story*.

Suitable books for students taking Botany for the Intermediate examination are Tansley, *Elements of Plant Biology* and Fritsch and Salisbury, *Botany for Students of Medicine and Pharmacy*.

STAGES II AND III. Students must have Strasburger, *Text-book of Botany*. The following books will be useful for both Options A and B : Eames and McDaniels, *Introduction to Plant Anatomy* ; Sharp, *Introduction to Cytology* ; Walton, *An Introduction to the Study of Fossil Plants* ; and Darrah, *Text-book of Palaeobotany*.

The following books are suitable for Option (A) : Fritsch, *Structure and Reproduction of the Algae*, Vols. I and II ; Gwynne-Vaughan and Barnes, *The Fungi* ; Bower, *Primitive Land Plants* ; Smith, *Cryptogamic Botany*, Vols. 1 and II ;

Eames, *Morphology of Vascular Plants, Lower Groups*; Scott, *Studies in Fossil Botany*, Vol. I; Bateson, *Mendel's Principles of Heredity*; Shull, *Heredity*; Shull, *Evolution*; Willis, *The Course of Evolution by Differentiation or Mutation*.

The following books are suitable for Option (B): Chamberlain, *Gymnosperms, Structure and Evolution*; Scott, *Studies in Fossil Botany*, Vol. II; Rendle, *Classification of Flowering Plants*, Vols. I & II; Barton Wright, *General Plant Physiology* or Raber, *Principles of Plant Physiology*; Weaver and Clements, *Plant Ecology*.

COURSES

STAGE I: The course of instruction in Stage I is given throughout the year.

STAGES II AND III: The course of instruction for Stages II and III in 1945 will be Option (B), given through the year.

Students attending the course of instruction in Option (B) who have not already gained terms in Chemistry I are very strongly recommended to take that subject concurrently with the course in Botany II B.

SPECIAL: Certain parts of the Stage II A and II B prescriptions may be regarded as self-contained units suitable for attendance by other than students taking Botany as a degree subject. At present the lectures in *Mycology and Bacteriology* (not less than 20 lectures from Option A) and *Plant Physiology* (not less than 25 lectures from Option B), without participation in, but with observation of laboratory work, form the only such courses offered. Each course starts at the beginning of the second term of the year in which instruction in the relevant Option is given. *Plant Physiology* will be given in 1945.

HONOURS: Students are reminded that satisfactory progress cannot be made unless at least about 30 hours per

week for one year or 15 hours per week for two years is spent *over and above* the time required for the theoretical studies.

ZOOLOGY

Intermediate students will read an important note under Botany, p. 57.

STAGE I. Lectures : Monday, Wednesday and Thursday, 9 a.m., Wednesday, 4 p.m. (General Biology).

Practical work (minimum of five hours a week): Monday, Wednesday, Thursday and Friday, 1.30 p.m. to 4 p.m., Thursday, 7 to 9.30 p.m.

STAGES II AND III. Lectures : Monday 5 p.m., Tuesday and Thursday 4 p.m. It will probably be necessary to have a fourth lecture during part of the year.

Practical work: Monday and Friday, 9 a.m. to noon, Thursday, 7 p.m. to 10 p.m.

It is a great advantage to Zoology students to take Chemistry also.

Junior students should spend at least five, and senior students at least seven hours a week at practical work.

Text Books : Stage I students should obtain Thomson, *Outlines of Zoology* ; Dendy, *Evolutionary Biology*. Marshall and Hurst, *Practical Zoology* will be found useful, and Thomson, *Biology for Everyman*. Stage II students should obtain Parker and Haswell, *Text-book of Zoology*, but may substitute Borradaile, Eastham, Potts and Saunders, *Invertebrata* for use in Option (A) and De Beer *Vertebrate Zoology* for use in Option (B).

Stage I students will find the following useful for reference : Parker, *Outlines of Biology* ; Haldane and Huxley, *Animal Biology* ; Shull, *Evolution* ; Shull, *Heredity* ; Bourne, *Comparative Anatomy of Animals* ; Whitehouse, *Dissection of the Dogfish* ; Marshall, *The Frog* ; Whitehouse and Grove, *Dissection of the Frog*. Stage I students may refer to the fol-

lowing list for additional reading, and Stage II students are definitely expected to recognise that wide and thoughtful reading is very important. The following books are among those from which selections for reading should be made, the selections being as extensive as possible. OPTION (A): Russell and Yonge, *The Seas*; Murray, *The Ocean*; Hesse, Allee and Schmidt, *Ecological Animal Geography*; Welch, *Limnology*; De Beer, *Experimental Embryology*; De Beer, *Embryology and Evolution*, or else *Embryos and Ancestors*; Kellicot, *General Embryology*; Hogben, *Recent Advances in Comparative Physiology*; Mitchell, *General Physiology*; Parker, *Elementary Nervous System*; Hegner, Root and Augustine, *Parasitology*. OPTION (B): Chapman, *Animal Ecology*; Russell, *Animal Behaviour*; Kellog, *Darwinism To-day*; Mitchell, *General Physiology*; Kellicot, *Chordate Embryology*; Norman, *History of Fishes*; Noble, *Biology of the Amphibia*.

The Cambridge Natural History; Lankester, *Treatise on Zoology*; Nordenskiöld, *History of Biology*, are useful for reference.

For Stages II and III the option for 1945 will be Option (A) *Non-chordata*.

Junior students will be advised at the first lecture regarding instruments and other appliances required.

MAMMALIAN ANATOMY

During the 1945 session a laboratory course in mammalian anatomy will be given for students requiring a detailed knowledge of mammalian osteology and anatomy. Laboratory hours by arrangement (minimum requirement, three hours per week). Zoology I is a prerequisite for this course. Students may pass an examination and obtain a certificate.

MATRICULATION

To matriculate a student must either be accredited or pass the Entrance Examination and make the following declaration : ' I do solemnly promise that I will obey the Statutes of the University, so far as they apply to me, and I hereby declare that I believe myself to have attained the age of sixteen years.'

No examination passed by any student before he has made this declaration can count towards the keeping of terms or the qualifying for a Degree.

The last day for making the declaration is June 1, provided that upon payment of a late-fee of £1 1s the declaration may be made not later than August 1.

PROVISIONAL MATRICULATION

The requirements for Provisional Matriculation and the regulations in connection with it will be found on page 24 of the New Zealand University *Calendar* for 1944.

Applications, accompanied by a fee of two guineas, shall be made not later than the first day of May in any year, or, on payment of a further late fee of one guinea, not later than the first day of August. Applications from a student attending classes or from an exempted student taking any subject in which terms are required shall be made to the Professorial Board of this College ; in other cases to the Registrar of the University of New Zealand.

SUPERVISION OF COURSES

The Professorial Board supervises the courses of all new students. Before enrolment in classes a record of the proposed course of study, signed by the Tutor of the Student and by the Dean of one of the Faculties of Arts, Science, Commerce or Law, must be in the hands of the Registrar. In the case of a student proceeding to one of the University degrees, this record shall state the complete course of study proposed for that degree ; and subsequent departures (if any) from such proposed courses must be similarly recorded.

TERMS

The keeping of terms is necessary for the degrees of M.A., M.Sc. and M.Com., for all subjects for the degrees of B.A., B.Sc., LL.B. and B.Com., for all subjects of the Diploma of Education, and of the Intermediate Examinations in Engineering, Medicine, Dentistry and Agriculture.

In general no examination will be held nor terms granted except in subjects taught in the College (see list above); if, however, a student has special reasons for taking subjects such as Music, Maori, which are not taught at the College, the Professorial Board may grant permission and will in that case arrange for an examination.

STUDENTS ATTENDING LECTURES

To keep terms in any subject a student attending lectures must

- (a) Have his name on the books of the College;
- (b) Do the class work and class examinations to the satisfaction of the Professor; provided that in exceptional circumstances the Professor may allow him to keep terms, except in Stage I subjects for B.A. and B.Sc., by passing the Annual College Examination.

To keep terms in Physics, Chemistry, Botany, Zoology, Geology, Psychology for B.Sc. or Geography a student must pursue to the satisfaction of the Professor a practical course, including such practical examination as the Professor may prescribe; and, unless especially exempted by the Science Faculty, a student presenting himself for an examination in any of these subjects for the purpose of keeping Terms must do the practical work in that subject in the year in which he so presents himself.

Terms granted in Stage I of a subject included in the courses for the degrees of B.A. and B.Sc. shall be for the year only unless otherwise directed by the Professorial Board.

ATTENDANCE

To fulfil the attendance requirement in a subject a student must, except in cases approved of by the Professorial Board, attend not less than 75 per cent. of the lectures in that subject.

REGULATIONS UNDER SECTION VII OF STATUTE

' BACHELOR OF SCIENCE '

Candidates will be tested on the translation of a passage in an approved foreign language, dealing with the subject or subjects offered at Stages II or III.

The examination is held in October immediately after the cessation of lectures. Candidates are required to present themselves not later than the second year of their course, and must make application not later than the end of the second term thereof.

STUDENTS NOT ATTENDING LECTURES

The Degree Examinations in Stage I of the subjects as set out for the B.A. Degree are conducted by the Colleges and there are no Annual College Examinations in these subjects for Extra-mural students; but these students must obtain exemption from their College and must enter with the New Zealand University, in each case paying the appropriate fees by the due date (see below).

The University regulations provide

' That any student who in the opinion of the Professorial Board of a Constituent College is prevented from attending lectures, or who objects on grounds of religious

scruples (whereof the evidence shall be satisfactory to the Chancellor) shall as far as is shown to be necessary be exempted from attendance at lectures.' (New Zealand University *Calendar*, 1944, p. 30.)

Applications for exemption under this statute shall be made on the form provided by the College.

To keep terms in any subject a student not attending lectures must

- (a) Have his name enrolled on the books of the College ;
- (b) Fill up the form provided by the College and obtain the approval of the Professorial Board ;
- (c) Pass in the subject at the annual College examinations, but he shall not be required to pass a terms examination in Stage I of any subject in which the University examination is conducted by the Colleges ;
- (d) Pay fees as specified under, to the Registrar of the College.

EXEMPTION FEES

Due not later than 31 March (except with late fee of £1 1s up to 10 July).

Full Exemption

- (a) If the subjects in which a student applies for exemption include any subject of B.A. Stage I the exemption fee is £3 3s
- (b) If the subjects in which a student applies for exemption do not include any subject of B.A. Stage I, the fee is £1 1s

Partial Exemption

A student attending lectures may, under certain circumstances, be exempted in one or more subjects.

Fee (inclusive) 10s 6d

Examination fees as for totally exempted students (see (b) below).

EXAMINATION FEES FOR EXEMPTED STUDENTS

Due not later than 10 July (except with late fee of £1 1s up to 31 July).

- (a) For students presenting only Stage I subjects as set out for B.A. Nil
- (b) For students presenting subjects other than Stage I as set out for B.A. For each such subject £1 1s

Note. This applies to all subjects at Stages II, III and M.A., and to all purely Law and Commerce subjects.

Extra-mural students are warned that an application to sit for the College Terms Examinations does not constitute an entry for the Degree Examinations. (For dates and fees payable on entrance for a Degree Examination see *New Zealand University Calendar, 1944, p. v and p. 266.*)

An additional fee of £1 1s is required from extra-mural students who desire to take an Oral Examination in a modern foreign language.

Refunds of College terms examination fees will be made only in exceptional cases. Applications for the holding over of a portion of the exemption or examination fees to the following year will not be considered unless the candidate intimates by 15 September his intention not to sit the examination.

ACADEMIC YEARS

A student may sit for a section of a degree at the end of his first year but may not sit for his final examination until he has completed at least three years' work to the satisfaction of the Professorial Board.

HISTORICAL NOTE

VICTORIA UNIVERSITY COLLEGE was the last of the four main constituent colleges of the University of New Zealand to be established. It thus completed, apart from special provision for agricultural teaching, and within thirty years of the foundation of the first college, the general structure of the country's institutions for university work. Otago University was founded by a provincial ordinance of 1869, and was followed by the University of New Zealand set up by the general Legislature under the New Zealand University Act of 1870. The intention of the Legislature was that the two universities should coalesce, but this proved impracticable, and it was not till after many negotiations that Otago University agreed to abandon its independent status and affiliate to a purely examining university. This University, planned on the model of the University of London, was provided for by a second act, the New Zealand University Act of 1874. To it were affiliated not only the University of Otago and Canterbury College (also founded and endowed by a provincial ordinance, in 1873) but a large number of secondary schools all over the Colony which were prepared to give instruction of university standard, undergo inspection by the University, and present candidates for its examinations. But all safeguards, such as inspection, broke down, and within a few years grave abuse of the system existed. Despite this situation, however, the University Senate thought both to maintain the standard of its degrees, and to secure universal respect for them, by excluding university teachers from examining, except for University entrance, and before the end of the first decade had arranged for all other examinations to be carried on from Great Britain.

Discontent, however, was widespread over the Colony, not least among the professors of the two institutions of university rank. Driven by this discontent the Government, at the end of 1878, set up a Royal Commission to report upon the operations of the University and its relations with the secondary schools, 'and upon the best means of bringing secondary and higher education within the reach of the youth of both sexes.' The Commission made its main report regarding the University in July 1879, supplying a draft Bill which incorporated its recommendations in the following year. It recommended that the system of affiliation as it then existed should be abolished, and that two further university colleges should be immediately set up, at Auckland and Wellington, with sites and buildings provided by the Government and endowment in land or money of £4,000 each per annum. It also recommended that the four resulting colleges should not be affiliated, but should form a federal University, the examinations of which should be conducted in the Colony, and ordinarily by the teachers of the University. 'Our desire is,' added the Commissioners, 'that each college may acquire a marked individuality, such as to demand recognition in the form of the examinations, and to secure for it a special reputation, which may at some future day be the foundation of its success as a separate and independent University.'

Unfortunately this report was made just at the outset of the great depression of the eighties, so that there were added to natural inertia what seemed to be sound economic reasons for doing nothing. Nevertheless a college was established in a small way at Auckland by the Auckland University College Act, 1882, and by 1887 the old system of affiliation of secondary schools had disappeared.

It was made clear that only university colleges could henceforth be affiliated. But nothing was done for Wellington—though the need there was demonstrably as great as that in any other part of the colony—until in 1887 Sir Robert Stout, then Premier, introduced his 'Wellington University College Bill,' to found a college serving the Wellington, Hawke's Bay and Taranaki districts. This Bill handed over the Government departments of science and the Colonial Museum and their staffs to the new college, and made Sir James Hector, the Director of the Geological Survey, who was already Chancellor of the University, its Warden; £1,500 extra per annum was to be granted. It was Stout's hope that the Wellington college, being at the seat of government and of the Court of Appeal, might specialise in the teaching of law, political science, and history, as well as in some departments of science. The Bill passed the House of Representatives, but was shelved by the Legislative Council. A new ministry coming into office in 1888, the matter lapsed for seven more years, in spite of the constant urgings of the University Senate and Court of Convocation. In 1894 Stout again came forward with a 'Middle District of New Zealand University College Bill'—the Middle District now comprising not merely Wellington, Hawke's Bay and Taranaki, but Nelson, Marlborough and Westland as well. No provision could be made in a private member's bill for the expenditure of money, and though the Bill was finally passed and the Government even appointed certain members of a college council, no further step was taken. The only reserves ever set apart in the Middle District for the endowment of university education were in Taranaki.

The final step was taken by Mr Seddon, the Premier, on his return from the Diamond Jubilee celebrations. His

Victoria College Act, passed on 22 December 1897, founded the College 'in commemoration of the sixtieth year of the reign of Her Majesty Queen Victoria.' It was to be a Liberal foundation, bringing university education within the reach of the working classes through direct contact with the primary schools; to ensure ultimate government control any land granted to the College was to remain vested in the Crown, and the table of College fees was subject to Crown approval. The relation of the College to the schools was fixed by the establishment of a system of 'Queen's Scholarships.' These scholarships were to be six in number, to be awarded to children of either sex under the age of 14 years on the results of an examination conducted by the College Council, which children were then to receive two years of secondary and three years of university instruction. The scholarships were payable out of the annual government grant to the College of £4,000; this grant, apart from the prospective income from a parcel of land of 4,000 acres reserved by the Act in the Nukumarū Survey District, and from fees—which were made exceptionally low—was the College's sole income. To add democratic to government control, the governing body of the College, the Council, was to consist of three members appointed by the Governor-in-Council, three elected by the members of the General Assembly resident in the University District, three elected by graduates of the College, either by examination or *ad eundem*, when their number reached thirty (until then by all graduates in the district with a British University degree), three by certificated school-teachers, three by Education Boards, and one by the Professorial Board of the College (no professor or lecturer being eligible for election). The first Chairman of the Council was Mr J.

R. Blair (1898-9) ; he was followed by Sir Robert Stout (1900-01).

As an initial step, the Council decided to found four chairs, and the following professors were appointed : *Classics*, John Rankine Brown¹; *English Language and Literature*, Hugh Mackenzie²; *Chemistry and Physics*, Thomas Hill Easterfield³; and *Mathematics and Mathematical Physics*, Richard Cockburn Maclaurin⁴. The College was affiliated to the University in February 1899 ; early in that year the four professors arrived, and as soon as possible classes were organised and lectures begun. In the absence of a proper building the Council was offered by the Government the Premier's residence in Tinakori Road, then vacant ; but this being thought unsuitable, arts classes were held in the Girls' High School, Pipitea Street, after school hours, and science classes in the Technical School in Victoria Street. The number of students in 1899 was 115, plus 9 exempted students.

On the basis thus laid the College as it exists at present was fairly steadily built up, though not without controversies and certain unhappy experiences. Additional chairs were founded from time to time, as follows : Modern Languages 1902, Biology 1903, Law (two chairs) 1906, Mental and Moral Philosophy 1907, Physics (separated from Chemistry) 1909, Economics (T. G. Macarthy Chair) 1920, Education 1920, History 1921, Geology 1921, Agriculture 1925-27, Political Science 1938 ; while, mainly

in the 1920's and later, the separate departments were strengthened by the appointment of full-time, and in certain cases part-time, lecturers.

The governing body of the College was altered by the Victoria College Amendment Act, 1914, to comprise two members appointed by the Governor-in-Council, two appointed by the Professorial Board, one appointed by the Wellington City Council, and members elected as follows : Four by the District Court of Convocation, two by members of Education Boards, one by the governing bodies of secondary schools, two by primary school-teachers, one by teachers in secondary and day technical schools. Under the Victoria University College Act, 1933, one of the representatives of the Professorial Board was to be the Principal, whenever appointed. Student representation on the Council was provided for in 1938, by a section of the Statutes Amendment Act, which added a member to be appointed by the Executive of the Students' Association. By this Act, also, the Council was freed from the necessity of having its by-laws approved by the Governor-General.

THE BUILDINGS

For some time after the passing of the Victoria College Act there was considerable argument over the provision of a site for a College building, which was terminated, not entirely to the satisfaction of well-wishers of the new institution, by the passing of an act (the Victoria College Site &c. Act) in 1901, which empowered the Council to acquire part of a town reserve on Salamanca Road—six acres of hill, carrying with it a magnificent view and the certainty of great expense in development. The Government made a grant of £31,000 towards the cost of building, and the first portion of the present structure, designed by Messrs Penty & Blake, was opened on 30 March 1906 by

Lord Plunket, then Governor of the Colony. A further portion, forming a wing at the rear of the Arts Building, was completed in March 1910. In 1919 the Government made a grant for the north wing, thus providing new and much-needed accommodation for the Library, as well as additional class-rooms, a Women's Common Room and a Tea Room. Into the wall of this wing, just outside the entrance, was built a stone for a memorial of those students of the College who had died in the Great War. They are also commemorated by the stained glass window and brasses in the Library, which were unveiled as part of the Silver Jubilee celebrations of 1924. The south wing was provided for by another Government grant made in 1921, to provide further accommodation for the science departments. This completed the buildings until the erection of the new Administration and Biology Blocks in 1937-9, also paid for by the Government through a grant of about £50,000; these last portions were designed by Messrs W. Gray Young and Francis H. Swan. The wooden gymnasium was built by public subscription in 1909, the tennis courts below being excavated by the students themselves in 1905.

FINANCE

The College has virtually no endowment in land, and none in money that is available for general purposes. The benefit of revenues derived from the Opaku Reserve in Taranaki, to which it has laid claim, was by the Taranaki Scholarships Act, 1905, confined to the youth of Taranaki, who may be granted 'Taranaki Scholarships' on the results of the University Entrance Scholarship examination. Nearly all university activity in the Victoria University District therefore has depended and depends on Government finance, either through statutory grants or grants for

special purposes. The early Queen's Scholarships crippled the College financially in its first years ; an amending act of 1903 provided for six Junior and four Senior Scholarships of this type, but in 1906 the College was relieved of their payment, and in 1907, by an amending act to the Education Act, they were abolished. £4,000 per annum was obviously not enough for the administration of a university college, even if it had not been expanding, as this one was, and in 1905 an additional annual grant of £2,000 was instituted, for 'specialisation in Law and Science'—though, in reality, such specialisation does not seem to have been expected. A further increase of £3,000 was made in 1914 by the New Zealand University Amendment Act of that year, which readjusted the finances of all the colleges, plus a share of the 'National Endowment' amounting to upwards of £1,900. This Act consolidated all the grants apart from that from the National Endowment into a single annual grant of £9,000, which was again increased (from 1 April 1920) by the New Zealand University Amendment Act, 1919, by £2,500—of which £850 was a special grant for a chair of Education. A short act amending the College Act in 1923 gave the Council power to levy its own class fees without the previous approval of the Governor-in-Council. Still another University Amendment Act, in 1928, increased the statutory grant, apart from the special Education grant, to £11,750. From this point the grant receded, as the Government instituted economies in the Depression ; in 1931 it was reduced to £9,431 18s., and the grant for the chair of Education was withdrawn ; in 1932 it became £7,350 and was made no longer statutory, but subject to annual vote. In 1934 it was increased to £7,800, in 1935 to £10,145 and later £12,166, and in 1936 to £14,320. In 1938, as the result

of discussion on the relation of the University to the Public Service, the Government decided to make a new annual grant of £2,000, to found a Department of Political Science and Public Administration, thus in some sort fulfilling the wish expressed by Sir Robert Stout as long ago as 1886. In recent years consequent on representations made to the Minister by the Conference of University Colleges and the N.Z. University substantial increases have been made to the annual grant which now stands at £21,952.

One partly endowed chair exists, the T. G. Macarthy Chair of Economics, which owes its origin to a grant of £10,000 made by the Trustees of the late T. G. Macarthy in 1915 ; owing to delay caused by the War, the chair was not actually founded till 1920. A chair of Agriculture was endowed by a gift of £10,000 from Sir Walter Buchanan in 1923, and filled in 1925. Auckland University College, however, had almost simultaneously founded a School of Agriculture, and both Colleges agreeing to join in founding the Massey Agricultural College at Palmerston North in 1927, the income derived from the Buchanan Trust funds was thenceforth made over to the new College, to which the chair was also transferred. The sum of £10,000 was also, in 1915, left to the College under the will of Sarah Anne Rhodes, to provide for the education of women ; in 1921 the Council arranged with the Trustees to devote the income to the fostering of Home Science, through the institution of a Sarah Anne Rhodes Fellowship or Scholarship ; in 1930 the regulations were altered to provide for a Travelling Fellow and/or a Lecturing Fellow. Monetary gifts and benefactions have provided a number of other scholarships of varying value, for both men and women students⁵. Between 1933 and 1937 the

Carnegie Corporation of New York made generous allocations to the Library, in money or in kind, of \$32,500. The greatest benefaction ever received by the College, however, was the £77,500 left by Mr William Weir in 1926, to provide and maintain a hostel for men students.

HOSTELS

Great need for hostels had always been felt, both as an aid to the corporate life of students and as a solution to the problem of getting adequate board and lodging in Wellington, and as a Government subsidy was by statute payable on voluntary contributions to the University or its Colleges, the Weir Bequest seemed of even greater value than it actually was. Plans were therefore drawn up on a large scale by Messrs W. Gray Young and Francis H. Swan for a building on a good site near the College. A University Amendment Act of 1928, however, limited the Government subsidy on any bequest to a maximum of £25,000, and with the coming of the depression the Government refused to pay any subsidy at all. This caused substantial modifications of the plans, even after the foundations had been laid, and the completion of the structure had to be indefinitely postponed. Weir House was opened by the Governor-General, Lord Bledisloe, on 6 March 1933. It accommodates 88 students. The first Warden was Dr I. A. Henning ; and the first Matron, Miss I. K. Irvine.

No similar large-scale provision for women students has yet been attainable. The generosity of the Society of Friends in 1915 provided a specially-built hostel for Training College students, where those who were students of both institutions could find accommodation ; but when the Training College was closed during the depression this hostel was also closed. A valuable beginning was made

in 1909 by the Women Students' Hostel Society, which, though not officially connected with nor under the control of the College, has carried on since that date Victoria House, 282 The Terrace, with accommodation for 39 students. This Society in 1938 acquired a second house, 216 The Terrace, which is similarly maintained, accommodating 16. There exists still, however, a considerable problem, which urgently needs solution.

GENERAL DEVELOPMENT

In spite of the terms of the original Victoria College Act, 1897, and in spite of the fact, also, that its full-time students were always in a small minority, the College from the first built up a fairly vigorous and independent corporate life. Its independence and vitality were shown in the University Reform movement of 1908-14, of which professors of the College were among the leaders, supported strongly by their own students. So far as the College was concerned, this resulted in certain changes in the constitution of the Council, giving the professors direct representation thereon (the Victoria College Amendment Act, 1914), and in larger Government grants (the New Zealand University Amendment Act, 1914). Strong, though unsuccessful, resistance also was shown to the public outcry for the victimisation of a professor of German blood in 1915; in the War 620 students and old students served with the Forces, and 150 sacrificed their lives. During and after the War the movement for University reform was carried on, both by the Board of Studies set up by the University Amendment Act, 1914, and by University teachers, mainly of Victoria and Canterbury Colleges. This movement centred round the demand for the reform of the examining system by the abolition of examinations conducted from abroad, as recommended

by the Royal Commission of 1879 ; round the distribution of 'special schools,' in which this College was not directly interested to any great extent ; and round the later demand for the creation of four separate universities. The upshot was the second Royal Commission on the University, which reported in 1925 in favour of the creation of a federal system as a transitional measure of indeterminate duration. Such a system was established, very imperfectly, by the New Zealand University Amendment Act, 1926, and succeeding Acts ; under the 1926 Act the College became in status a constituent college of a federal, and no longer merely an affiliated college of an examining, University. Its internal administration was made more rational by the appointment in 1938 of a Principal, provided for by the consolidated Victoria University College Act, 1933, but postponed pending the College's emergence from the period of straitened finance. Professor T. A. Hunter became the first Principal.

Student organisation, and student thought on the problems of the College and the University, are practically coeval with the College. The 'Victoria College Students' Society' was founded on 6 May 1899 at a meeting held at the Girls' High School. A new constitution was passed in 1903 and the name of the Society altered to 'Students' Association'. It was the Association which in this year moved for the acquisition of a coat-of-arms for the College ; it raised money vigorously towards the cost of the College buildings, and in other ways played a great part in the critical formative years of the corporate body. *The Spike, or Victoria University College Review*, was first published in 1902. *The Old Clay Patch*, a collection of verse by students, appeared in 1910, and a second edition in 1920. The Debating Society was founded in 1899, and

round the central association rapidly grew most of the College clubs now in existence.

ADULT EDUCATION

Adult Education has been provided for, to the best of the College's ability, since 1915, when the Workers' Educational Association, then at the outset of its work in New Zealand, established three tutorial classes in Wellington. The movement grew on lines rather different from the English model, being limited by inadequate financial resources (its main recourse, in spite of support from public bodies, being to Government grants) and the consequential small extent to which it could employ tutors for the wide country districts, both in the North and in the South Island (Nelson and Marlborough). It has therefore had to work in the country largely by means of 'box courses', and 'discussion courses' carried on by post, a tutor-organiser covering what ground he could. In 1932 the Government grant was withdrawn altogether, and though in 1934 the movement was saved by a tapering

grant from the Carnegie Corporation, the Association could no longer maintain a full-time tutor-organiser. With the return of the Government grant in 1936 it was possible to extend the work once more, and first one tutor-organiser for country work was appointed in 1936, and then a second in 1938. Two additional grants were made by the Government in 1937, one specifically for tutorial work in Public Works Camps. Meanwhile other agencies for adult education had come into being, and it was felt that some co-ordination of effort and expenditure was necessary. At the request of the Minister of Education, the Hon. P. Fraser, a committee was set up by the University Senate to go into the matter, and as a result of its report there was formed in 1938 a Council of Adult Education, through the agency of which it was intended to put the work of the W.E.A., among other organisations, on a new and much more satisfactory basis all over the country.

SEAL AND ARMS

The College seal is lozenge shaped with a representation of a figure of Queen Victoria standing crowned and sceptred with the legend 'Seal of the Victoria University College, Wellington, New Zealand, 1897.' The motto is *Sapientia magis auro desideranda*.

The Arms are vert on a fesse engrailed between three crowns or, a canton azure charged with four estoilles argent (in the form of the Southern Cross). The Crest is that of the Duke of Wellington.

STUDENTS' ASSOCIATION

The Victoria University College Students' Association (Inc.) is the official link between the students of the College and the College authorities. All students of the College are automatically members of the Students' Association. In addition, all graduates of the University of New Zealand, and all persons who have attended lectures at any University or University College for at least one year are, subject to payment of the requisite fee, entitled to membership of the Students' Association.

The objects of the Students' Association are to deal with all matters in which the students as a body are interested; to promote sports and social activities amongst its members; the control of official publications; to conduct the Easter Inter-University Tournament and the annual Capping Celebrations; and to conduct all other student activities designed to promote student interest and welfare.

Student activities are controlled by the Students' Association Executive, an annually elected body of twelve members of the Association. The various cultural, sporting, social and intellectual interests of the student body are catered for by Clubs and Societies affiliated to the Students' Association.

Full information as to any matters affecting the Students' Association may be obtained on application to the Executive Room.
