FACULTY OF ARTS

DEPARTMENT OF ENGLISH LANGUAGE AND LITERATURE

Professor Gordon

Mr Cochran

Mr Bertram

Miss Stevens

Mr Burchfield

Mr Miles

ENGLISH I

The work of the class falls into two sections: (a) An introduction to Rhetoric, critical method and linguistic problems, studied with the aid of certain prose texts; (b) A general survey of English literature with the reading of illustrative texts from English poetry and drama. These sections correspond to the (a) and (b) papers of the degree examination. Some lectures will be given on New Zealand writing.

Prescribed Texts 1948:

(a) PROSE TEXTS: *English Prose Technique* (issued by the Department); Milton, *Areopagitica*; Dryden, *Essay of Dramatic Poesy*; Hazlitt, *The Spirit of the Age*. Any two from the following: Swift, *Gulliver's Travels*; Richardson, *Pamela*; Jane Austen, *Pride and Prejudice*; E. M. Forster, *A Passage to India*; V. Woolf, *To the Lighthouse*; K. Mansfield, *Selected Stories*.

For language either L. P. Smith, *The English Language*, or Jespersen, *Growth and Structure of the English Language* or Bradley, *The Making of English*.

(b) POETRY: *The Golden Treasury of Longer Poems* (Everyman); *The English Lyric* (issued by the Department):

Roberts, *The Century's Poetry*, Vol. 5 (Bridges to the Present Day).

DRAMA: *Secunda Pastorum*; Shakespeare, *Romeo and Juliet*, *Hamlet*; Sheridan, *The Critic*; Shaw, one play; T. S. Eliot, *The Family Reunion*.

Recommended for reference and additional reading: Fowler, *Modern English Usage*, *The King's English*; King and Ketley, *The Control of Language*; Bodmer, *The Loom of Language*; Schlauch, *The Gift of Tongues*; Aristotle, *The Poetics*; Rylands, *Words and Poetry*.

NOTE: As deliveries of books are still uncertain, it may be necessary to modify this list. External students should communicate with the Department at the beginning of the session.

OLD ENGLISH—ELEMENTARY TUTORIAL CLASS: In the latter part of the session students who propose to proceed to English II in the following year should join the tutorial class in Old English. An hour will be fixed to suit the convenience of intending students.

NOTE: Suitably qualified students may after consultation with the Professor substitute in place of the paper (b) on the General Survey of English literature a paper on the Special Period being studied in the advanced class. Only first year students intending to proceed to Honours should adopt this course.

ENGLISH II

The work of the class falls into three sections corresponding to the three degree papers, Language, Special Period, Chaucer and Shakespeare.

(a) Language: Old and Middle English studied from the following texts: Wyatt, *Anglo-Saxon Reader* Nos. 2, 3, 11, 14, 15, 17., or Ardern, *First Readings in Old English Prose* (obtainable from the Department). Sisam, *Fourteenth Century Verse and Prose* Nos 1, 3, 8, 9, 10, 12, 13, 15, 17. The Grammar of West Saxon: Textbook *Old English Grammar* issued by the Department.

IMPORTANT: Owing to difficulties in text book supplies Ardern only will be lectured on in the course for Internal Students. Candidates for the Degree Paper however, may offer either Wyatt or Ardern as the prescribed books in Old English.

(b) Special Period and set critical works on the period as for Stage III. 1948 period: 1557-1625.

(c) Chaucer and Shakespeare: *Prescribed texts*: Chaucer, *The Prologue; Knight's Tale*; Shakespeare, *The Tempest; Macbeth*. For more detailed and especially textual study: *Troilus and Cressida*. For further reading consult the Stage III prescription.

ENGLISH III

The work of the class falls into four sections corresponding to the divisions and options of the three degree papers. All students study Old and Middle English in the prescribed texts, a Special Period, Shakespeare and Chaucer. In addition students must choose either a language or a literary option for the third paper.

Sisam, *Fourteenth Century Verse and Prose*, Nos. 2, 4-7 inclusive, 11, 14, 16. The grammar and syntax of Old and Middle English as illustrated from the texts studied. Textbooks: Wyatt's or Wardale's *Grammar*.

(b) Special Period and set critical works on the period. The special period for 1948 is 1557-1625.

PRESCRIBED AUTHORS: The major playwrights, poets and prose writers of the period. Suitable class editions of the dramatists are available in the Everyman and the World's Classics series. Sidney's *Defence of Poetry* and Lamb's *Specimens* are set critical texts.

M.A. AND HONOURS CLASSES

Students should consult the Professor at the beginning of the session, when the hours of meeting will be arranged. English may be taken *either* as a half subject with a language *or* as a single subject. Candidates should make themselves familiar with the full prescriptions in the *University Calendar*. All students for M.A. and Honours offer four papers, Old English, Middle English, Special Period, and (in alternate years) Milton or Shakespeare. Candidates for Honours in English as a single subject offer in addition three papers out of the following six subjects : History of the Language, General Outlines of English Literature, History and Principles of Literary Criticism, Period of English Literature 1840-1910, Gothic, Icelandic.

The work in the Honours classes falls into corresponding divisions. Old and Middle English texts are read in

tutorial classes. For the Special Period in literature Honours students attend the advanced class in literature (Tuesday and Thursday 5–6 p.m.). The Professor conducts a weekly seminar in alternate years on Milton or Shakespeare (1948 : Milton). Tuition in the various options will be arranged to suit the needs of individual candidates. Full reading-lists are available.

IMPORTANT : No student should contemplate Honours in English in one year who is not devoting full time to University studies. Part-time students are recommended to spread the course over two years.

PRE-REQUISITES FOR M.A. IN ENGLISH : Where English is offered as a half subject in conjunction with a language, Stage III in that language is a pre-requisite. Where English is offered as a single subject, a Stage I unit of a language (other than Maori) is pre-requisite. Students transferring from or to this college for M.A. work in English should note that this last pre-requisite is allowable only to students whose names are on the books of this college. In framing a B.A. course a prospective honours candidate should regard the one-unit language pre-requisite as a minimum requirement only ; a working knowledge of another literature is of great value. Students not advancing a language beyond Stage I should advance another subject (e.g. history or philosophy) to Stage II and preferably Stage III. Students who can offer no classical language are strongly recommended to take Greek History Art and Literature.

Honours students in 1948 will require the following editions of language texts : Wyatt, *Anglo-Saxon Reader* ; *Beowulf* (ed. by Wyatt and Chambers or by Klaeber) ; *Chaucer* (ed. Skeat or Robinson) ; *Gawain and the Green Knight* (ed. Tolkien and Gordon).

ENGLISH CLASS LIBRARY

The English class library was established in 1941 by a bequest from the late Professor Hugh Mackenzie, foundation Professor of English in the college. It contains several thousand useful volumes of texts and critical works and is open to all members of the Stage III and Honours classes. There is a small voluntary subscription. No books may be removed without the permission of the Professor.

DEPARTMENT OF HISTORY

Professor Wood

Dr J. C. Beaglehole

Mr Owen

Mrs Boyd

Students who contemplate proceeding to Honours are advised to consult the Professor, and to keep in touch with him during their course. This is particularly important for those who may ultimately read for Honours as external students.

All students are recommended to make frequent reference to atlases. Historical atlases such as *Philips' Historical Atlas* (Ramsay Muir) and Putzger's *Historischer Schul-Atlas* will be found particularly useful; also the series of sketch maps given by Horrabin, *An Atlas of European History*. Robertson and Bartholomew, *Historical Atlas of Modern Europe* is good for the period 1789-1922.

Students should note that considerable changes have been introduced into the B.A. History prescriptions for 1948; and that there will be changes in the M.A. prescriptions in History in and after 1949.

HISTORY I

The History of European Civilisation since the Fall of Rome.

The work of this class is designed for but not con-

fined to the course for B.A. and Diploma in Journalism. It comprises a general introduction to the main trends in European History, but certain topics or periods will be selected for special study within this framework.

Books Recommended: Students are advised to procure some good general survey. It is extremely important, however, that such books should be supplemented by wider reading. The following are suggested as the type of book which might usefully form part of a systematic reading programme and of a student's library: Marvin, *The Living Past*; Stawell and Marvin, *The Making of the Western Mind*; Coulton, *Studies in Medieval Thought*; Power, *Medieval People*; Davis, *Medieval Europe*; Crump and Jacob, *Legacy of the Middle Ages*; Bryce, *The Holy Roman Empire*; Pirenne, *History of Europe from the Invasions to the Sixteenth Century*; Trevelyan, *History of England*; Baynes, *Byzantine Empire*; Pares, *Russia*; Barraclough, *Factors in German History*; Taylor, *Course of German History*; Thomson, *Democracy in France*; Huddleston, *France and the French*; Faulkner, *Short History of the American People*; Nevins and Commager, *The History of a Free People*; Beaglehole, *New Zealand a Short History*; Beaglehole (ed.), *New Zealand and the Statute of Westminster*; Scott, *Short History of Australia*; Wood, *Concise History of Australia*.

HISTORY II

History of Europe and the expansion of Europe from the Renaissance to 1789. Topics for more intensive study will be selected within this period.

Other books of similar scope and standard may be substituted for the above. Additional reading is essential, and will be prescribed as required.

HISTORY III

History of Europe since 1789; the expansion of Europe since 1783.

Books Recommended: Stephens, *Revolutionary Europe*; Fisher, *Napoleon*; Grant and Temperley, *Europe in the 19th and 20th Centuries*; Trevelyan, *British History in the 19th Century*; Williamson, *Short History of British Expansion*, Vol II, or Egerton, *Short History of British Colonial Policy*; Keith, *Speeches and Documents on British Colonial Policy*; *Speeches and Documents on the British Dominions*.

Other books of similar scope and standard may be substituted for the above. Additional reading is essential, and will be prescribed as required.

M.A. AND HONOURS

Students should consult the Professor at the beginning of the session, when hours of meeting will be arranged. So far as possible the class will be organised as a seminar. Its work covers the prescriptions as defined for M.A. and Honours in the New Zealand University *Calendar*, and a short course will be given at the beginning of the session on Historical Method and writing, with special reference to thesis work. Students should become familiar with such books as Langlois and Seignobos, *Introduction to the Study of History*; Lambert, *The Nature of History*; Williams, *The Modern Historian*. DEPARTMENT OF POLITICAL
SCIENCE AND PUBLIC
ADMINISTRATION

Professor : Appointment pending

Mr Scott

Mr Smith

Dr Kahn

B.A. COURSES

(For the Diploma in Public Administration see page 98)

The syllabus in Political Science for the B.A. comprises three units and covers three years' work. The first unit consists of *either* History of Political Theory *or* Comparative Political Institutions. Students may select whichever of these subjects they prefer as Political Science I. They may then proceed in a subsequent year to take as Political Science II the alternative not chosen for Political Science I. After both of these units have been taken, students may advance to Political Science III which deals with Modern Democracies.

Those who have already passed the University examination in Political Science I under the *old* syllabus may now take either History of Political Theory or Comparative Political Institutions as Political Science, II.

Undergraduates in the Arts Faculty who desire to do Political Science would be well advised to combine it with such kindred subjects as Economics, History, Philosophy, or Geography.

Exempted students should consult the Professor at the commencement of the academic session.

HISTORY OF POLITICAL THEORY

The course studies the development of different political theories and ideas about government. It includes a survey of ancient Greek and Roman ideas, of medieval

thought, of the doctrines of the nation-state and the rise of democracy, and of contemporary issues. It emphasises the relationship of each theory to the historical circumstances of the country and the period in which it was propounded. The University syllabus requires an examination of two papers: one on political theories from Plato to Rousseau, the other on the theories from Burke to the present day.

Recommended Books: Sabine, G. H., *History of Political Theory*; Coker, F. W., *Recent Political Thought*; Mayer, J. P., *Political Thought: the European Tradition*; and original texts of the great classics.

COMPARATIVE POLITICAL INSTITUTIONS

This is a survey course designed to compare leading examples of governmental systems. Throughout this course the emphasis is placed, not on the theories and ideas about government, but on the systems and institutions as they actually operate. The countries to which particular attention is paid are Great Britain, the United States, France, Switzerland, the Soviet Union, Germany and Italy.

Recommended Books: Lindsay, A. D., *The Essentials of Democracy*; Laski, H. J., *Parliamentary Government in England*; McBain, H. L., *The Living Constitution*; Webb, S. and B., *Soviet Communism*; Finer, H., *Mussolini's Italy*; Marx, F. M., *Government in the Third Reich*, etc.

MODERN DEMOCRACIES

The third stage of teaching in Political Science carries to a more advanced level the study of democratic governments already commenced in the course on Comparative Political Institutions. Great Britain and the United States are the two countries designated by the University syllabus for special analysis, and the traits of these two

democracies will be compared and contrasted in some detail.

Lectures will be accompanied by seminars with plentiful opportunities for discussion.

The herbarium must contain at least 100 specimens collected by the student and representing the various divisions of the Plant Kingdom. The specimens should be mounted and labelled according to international standards.

LABORATORY NOTEBOOKS. Laboratory work must be recorded in the approved notebook. A good quality H pencil will be needed for drawing.

The College year consists of three terms.

MATRICULATION

To matriculate a student must either be accredited or pass the Entrance Examination and make the following declaration : ' I do solemnly promise that I will obey the Statutes of the University, so far as they apply to me, and I hereby declare that I believe myself to have attained the age of sixteen years.'

No examination passed by any student before he has made this declaration can count towards the keeping of terms or the qualifying for a Degree.

The last day for making the declaration is June 1.

PROVISIONAL ADMISSION

The requirements for Provisional Admission and the regulations in connection with this form of Admission will be found in the New Zealand University Calendar.

Applications, accompanied by a fee of two guineas, shall be made not later than the first day of May in any year. Applications from a student attending classes or from an exempted student taking any subject in which terms are required shall be made to the Professorial Board of this College ; in other cases to the Registrar of the University of New Zealand.

SUPERVISION OF COURSES

The Professorial Board supervises the courses of all new students. Before enrolment in classes a record of the proposed course of study, signed by the Tutor of the Student and by the Dean of one of the Faculties of Arts, Science, Commerce or Law, must be in the hands of the Registrar. In the case of a student proceeding to one of the University degrees, this record shall state the complete course of study proposed for that degree ; and subsequent departures (if any) from such proposed courses must be similarly recorded.

Note. In addition to ordinary enrolment requirements, all students enrolling at Victoria University College for the first time must report to the Liaison Officer and fill in a record card for him.

If at any time during the year a student desires to change his course or transfer to another University College, he must report to the Liaison Officer or leave a note stating what he proposes to do.

TERMS

The keeping of terms is required in all subjects for (i) M.A., M.Sc., M.Com., B.A., B.Sc., LL.B., B.Com., Mus.B., (ii) Diplomas in Education and in Journalism, (iii) Intermediate Examinations, (iv) Professional Examinations in Law.

In general no examination will be held nor terms granted except in subjects taught in the College (see list above); if, however, a student has special reasons for taking a subject such as Maori, which is not taught at the College, the Professorial Board may grant permission and will in that case arrange for an examination.

STUDENTS ATTENDING LECTURES

To keep terms in any subject a student attending lectures must

- (a) Have his name on the books of the College;
- (b) Do the class work and class examinations to the satisfaction of the Professor; provided that in exceptional circumstances the Professor may allow him to keep terms, except in Stage I subjects for B.A. and B.Sc., by passing the Annual College Examination.

To keep terms in Physics, Chemistry, Botany, Zoology, Geology, Psychology for B.Sc. or Geography a student must pursue to the satisfaction of the Professor a practical course, including such practical examination as the Professor may prescribe; [and, unless especially exempted by the Science Faculty, a student presenting himself for an examination in any of these subjects for the purpose of keeping Terms must do the practical work in that subject in the year in which he so presents himself.]

Terms granted in Stage I of a subject included in the courses for the degrees of B.A. and B.Sc. shall be for the year only unless otherwise directed by the Professorial Board.

ATTENDANCE

To fulfil the attendance requirement in a subject a student must, except in cases approved of by the Professorial Board, attend not less than 75 per cent. of the lectures in that subject.

REGULATIONS UNDER SECTION IV OF STATUTE 'MASTER OF SCIENCE'

Every candidate for the degree of Master of Science is required to forward to the Registrar of the N.Z. University not later than the 30th day of September a certificate of his ability to read scientific works in a foreign language. Not later than the 30th day of June a candidate must apply to the Registrar of this University College to sit the approved tests in September.

STUDENTS NOT ATTENDING LECTURES

The Degree Examinations in Stage I and Stage II of the subjects as set out for the B.A. Degree are conducted by the Colleges and there are no Annual College Examinations

in these subjects for Extra-mural students; but these students must obtain exemption from their College and must enter with the New Zealand University, in each case paying the prescribed fees by the due date (see below).

The University regulations provide

'That any student who in the opinion of the Professorial Board of a Constituent College is prevented from attending lectures, or who objects on grounds of religious scruples (whereof the evidence shall be satisfactory to the Chancellor) shall as far as is shown to be necessary be exempted from attendance at lectures.' (See New Zealand University *Calendar*.)

Applications for exemption under this statute shall be made on the form provided by the College.

To keep terms in any subject a student not attending lectures must

- (a) Have his name enrolled on the books of the College;
- (b) Fill up the form provided by the College and obtain the approval of the Professorial Board;
- (c) Pass in the subject at the annual College examinations, but he shall not be required to pass a terms examination in Stage I or in Stage II of any subject in which the University examination is conducted by the Colleges;
- (d) Pay fees as specified below, to the Registrar of the College.

EXEMPTION FEES

Due not later than 31 March (except with late fee of £1 1s up to 10 June).

Full Exemption

- (a) If the subjects in which a student applies for

- exemption include any subject of B.A. Stage I or Stage II the exemption fee is £3 3s
- (b) If the subjects in which a student applies for exemption do not include any subject of B.A. Stage I or Stage II, the fee is £1 1s

Partial Exemption

A student attending lectures may, under certain circumstances, be exempted in one or more subjects.

Fee (inclusive) 10s 6d

Examination fees as for totally exempted students (see (b) below).

Extra-mural students are warned that an application to sit for the College Terms Examinations does not constitute an entry for the Degree Examinations. (For dates and fees payable on entrance for a Degree Examination see New Zealand University Calendar, 1948).

Terms EXAMINATION FEES FOR EXEMPTED STUDENTS

Due not later than 10 June (except with late fee of £1 1s up to 30 June).

- (a) For students presenting only Stage I or Stage II subjects as set out for B.A. Nil
- (b) For students presenting subjects other than Stage I or Stage II as set out for B.A. For each such subject £1 1s

Note. This applies to all subjects at Stages III and M.A., and to all purely Law and Commerce subjects.

An additional fee of £1 1s is required from extra-mural students who desire to take an Oral Examination in a modern foreign language.

Refunds of College terms examination fees will be made only in exceptional cases. Applications for the hold-

ing over of a portion of the exemption or examination fees to the following year will not be considered unless the candidate intimates by 15 September his intention not to sit the examination.

ACADEMIC YEARS

A student may sit for a section of a degree at the end of his first year but may not sit for his final examination until he has completed at least three years' work to the satisfaction of the Professorial Board.

*COLONIAL APPOINTMENTS SCHEME
RECRUITMENT OF UNIVERSITY GRADUATES*

Arrangements have recently been made between His Majesty's Governments in the United Kingdom and in New Zealand for facilitating recruitment for the British Colonial Services from the New Zealand University.

The scheme enables New Zealand University graduates to be considered on equal terms with candidates from Great Britain and the other self-governing Dominions for certain posts in the administrative, medical, agricultural veterinary, police, and other services in a number of British Crown Colonies and Protectorates which are under the control of His Majesty's Government in the United Kingdom.

Applicants accepted for service in Tropical Africa will receive one year's training at Oxford or Cambridge with an allowance of £233 to meet all expenses. Applicants accepted for special services—*e.g.* Medical, Forestry, Audit, and Survey—are required to go through similar courses, with allowances from £225 to £275 per year. Applicants for Educational posts *may* be required to receive training.

Prospective candidates should apply to *Mr. H. G. Miller, M.A., Liaison Officer, Colonial Appointments Scheme, Victoria University College.*

THE VICTORIA UNIVERSITY
COLLEGE ACT 1933

AN ACT to consolidate and amend certain Enactments
relating to the Victoria University College.

BE IT ENACTED by the General Assembly of New Zealand in Parliament assembled, and by the authority of the same, as follows :

1. This Act may be cited as the Victoria University College Act, 1933, and shall come into force on the first day of January, nineteen hundred and thirty-four.

2. In this Act, unless the context otherwise requires,

‘ The College ’ means the Victoria University College established under this Act :

‘ The Council ’ means the Victoria University College Council :

‘ The Principal ’ means the person for the time being holding office as Principal of the College :

‘ The Professorial Board ’ means the Professorial Board of the College :

The terms ‘ education district,’ ‘ public school,’ ‘ intermediate school,’ ‘ intermediate department,’ ‘ secondary school,’ ‘ technical high school,’ and ‘ combined school ’ have the same meanings respectively as in the Education Act, 1914.

3. (1) There is hereby established in the City of Wellington a college of the University of New Zealand, to be called the Victoria University College.

(2) The College shall consist of the Council, the professors and lecturers of the College for the time being in office, and the graduates and undergraduates of the University of New Zealand whose names are for the time being on the books of the College.

(3) The said College shall be a body corporate with perpetual succession and a common seal, and shall be capable of holding real and personal property and of doing and suffering all that bodies corporate may do and suffer.

(4) The College established under this Act is hereby declared to be the same College as that established under the Victoria College Act, 1905, and originally constituted a body corporate by the name of 'The Victoria College' under the Victoria College Act, 1897; and the corporate identity of the College shall not be affected, notwithstanding any change in its name or constitution effected by this Act.

4. The Minister of Education shall be the Visitor of the College, and shall have all the powers and functions usually possessed by Visitors.

10. If at the times prescribed by this Act for the appointment or election of members no members or insufficient members are appointed or elected, or if a casual vacancy is not filled within the time hereinbefore prescribed, the Governor-General may appoint a suitable person in the place of the member who should have been appointed or elected.

HISTORICAL NOTE

VICTORIA UNIVERSITY COLLEGE was the last of the four main constituent colleges of the University of New Zealand to be established. It thus completed, apart from special provision for agricultural teaching, and within thirty years of the foundation of the first college, the general structure of the country's institutions for university work. Otago University was founded by a provincial ordinance of 1869, and was followed by the University of New Zealand set up by the general Legislature under the New Zealand University Act of 1870. The intention of the Legislature was that the two universities should coalesce, but this proved impracticable, and it was not till after many negotiations that Otago University agreed to abandon its independent status and affiliate to a purely examining university. This University, planned on the model of the University of London, was provided for by a second act, the New Zealand University Act of 1874. To it were affiliated not only the University of Otago and Canterbury College (also founded and endowed by a provincial ordinance, in 1873) but a large number of secondary schools all over the Colony which were prepared to give instruction of university standard, undergo inspection by the University, and present candidates for its examinations. But all safeguards, such as inspection, broke down, and within a few years grave abuse of the system existed. Despite this situation, however, the University Senate thought both to maintain the standard of its degrees, and to secure universal respect for them, by excluding university teachers from examining, except for University entrance, and before the end of the first decade had arranged for all other examinations to be carried on from Great Britain.

Discontent, however, was widespread over the Colony,

not least among the professors of the two institutions of university rank. Driven by this discontent the Government, at the end of 1878, set up a Royal Commission to report upon the operations of the University and its relations with the secondary schools, 'and upon the best means of bringing secondary and higher education within the reach of the youth of both sexes.' The Commission made its main report regarding the University in July 1879, supplying a draft Bill which incorporated its recommendations in the following year. It recommended that the system of affiliation as it then existed should be abolished, and that two further university colleges should be immediately set up, at Auckland and Wellington, with sites and buildings provided by the Government and endowment in land or money of £4,000 each per annum. It also recommended that the four resulting colleges should not be affiliated, but should form a federal University, the examinations of which should be conducted in the Colony, and ordinarily by the teachers of the University. 'Our desire is,' added the Commissioners, 'that each college may acquire a marked individuality, such as to demand recognition in the form of the examinations, and to secure for it a special reputation, which may at some future day be the foundation of its success as a separate and independent University.'

Unfortunately this report was made just at the outset of the great depression of the eighties, so that there were added to natural inertia what seemed to be sound economic reasons for doing nothing. Nevertheless a college was established in a small way at Auckland by the Auckland University College Act, 1882, and by 1887 the old system of affiliation of secondary schools had disappeared. It was made clear that only university colleges could hence

forth be affiliated. But nothing was done for Wellington—though the need there was demonstrably as great as that in any other part of the colony—until in 1887 Sir Robert Stout, then Premier, introduced his 'Wellington University College Bill,' to found a college serving the Wellington, Hawke's Bay and Taranaki districts. This Bill handed over the Government departments of science and the Colonial Museum and their staffs to the new college, and made Sir James Hector, the Director of the Geological Survey, who was already Chancellor of the University, its Warden; £1,500 extra per annum was to be granted. It was Stout's hope that the Wellington college, being at the seat of government and of the Court of Appeal, might specialise in the teaching of law, political science, and history, as well as in some departments of science. The Bill passed the House of Representatives, but was shelved by the Legislative Council. A new ministry coming into office in 1888, the matter lapsed for seven more years, in spite of the constant urgings of the University Senate and Court of Convocation. In 1894 Stout again came forward with a 'Middle District of New Zealand University College Bill'—the Middle District now comprising not merely Wellington, Hawke's Bay and Taranaki, but Nelson, Marlborough and Westland as well. No provision could be made in a private member's bill for the expenditure of money, and though the Bill was finally passed and the Government even appointed certain members of a college council, no further step was taken. The only reserves ever set apart in the Middle District for the endowment of university education were in Taranaki.

The final step was taken by Mr Seddon, the Premier, on his return from the Diamond Jubilee celebrations. His Victoria College Act, passed on 22 December 1897,

founded the College 'in commemoration of the sixtieth year of the reign of Her Majesty Queen Victoria.' It was to be a Liberal foundation, bringing university education within the reach of the working classes through direct contact with the primary schools; to ensure ultimate government control any land granted to the College was to remain vested in the Crown, and the table of College fees was subject to Crown approval. The relation of the College to the schools was fixed by the establishment of a system of 'Queen's Scholarships.' These scholarships were to be six in number, to be awarded to children of either sex under the age of 14 years on the results of an examination conducted by the College Council, which children were then to receive two years of secondary and three years of university instruction. The scholarships were payable out of the annual government grant to the College of £4,000; this grant, apart from the prospective income from a parcel of land of 4,000 acres reserved by the Act in the Nukumarū Survey District, and from fees—which were made exceptionally low—was the College's sole income. To add democratic to government control, the governing body of the College, the Council, was to consist of three members appointed by the Governor-in-Council, three elected by the members of the General Assembly resident in the University District, three elected by graduates of the College, either by examination or *ad eundem*, when their number reached thirty (until then by all graduates in the district with a British University degree), three by certificated school-teachers, three by Education Boards, and one by the Professorial Board of the College (no professor or lecturer being eligible for election). The first Chairman of the Council was Mr J. R. Blair (1898-9); he was followed by Sir Robert Stout (1900-01).

As an initial step, the Council decided to found four chairs, and the following professors were appointed: *Classics*, John Rankine Brown¹; *English Language and Literature*, Hugh Mackenzie²; *Chemistry and Physics*, Thomas Hill Easterfield³; and *Mathematics and Mathematical Physics*, Richard Cockburn Maclaurin⁴. The College was affiliated to the University in February 1899; early in that year the four professors arrived, and as soon as possible classes were organised and lectures begun. In the absence of a proper building the Council was offered by the Government the Premier's residence in Tinakori Road, then vacant; but this being thought unsuitable, arts classes were held in the Girls' High School, Pipitea Street, after school hours, and science classes in the Technical School in Victoria Street. The number of students in 1899 was 115, plus 9 exempted students.

On the basis thus laid the College as it exists at present was fairly steadily built up, though not without controversies and certain unhappy experiences. Additional chairs were founded from time to time, as follows: Modern Languages 1902, Biology 1903, Law (two chairs) 1906, Mental and Moral Philosophy 1907, Physics (separated from Chemistry) 1909, Economics (T. G. Macarthy Chair) 1920, Education 1920, History 1921, Geology 1921, Agriculture 1925-27, Political Science 1938; while, mainly in the 1920's and later, the separate departments were

strengthened by the appointment of full-time, and in certain cases part-time, lecturers.

The governing body of the College was altered by the Victoria College Amendment Act, 1914, to comprise two members appointed by the Governor-in-Council, two appointed by the Professorial Board, one appointed by the Wellington City Council, and members elected as follows : Four by the District Court of Convocation, two by members of Education Boards, one by the governing bodies of secondary schools, two by primary school-teachers, one by teachers in secondary and day technical schools. Under the Victoria University College Act, 1933, one of the representatives of the Professorial Board was to be the Principal, whenever appointed. Student representation on the Council was provided for in 1938, by a section of the Statutes Amendment Act, which added a member to be appointed by the Executive of the Students' Association. By this Act, also, the Council was freed from the necessity of having its by-laws approved by the Governor-General.

In 1946 a section of the Statutes Amendment Act made provision for a full-time Principal. In 1947 The Victoria University College Amendment Act provided for an increase from one to two in the number of members of the Council appointed by the Professorial Board and for another member of the Council to be elected by the Teaching Staff.

THE BUILDINGS

For some time after the passing of the Victoria College Act there was considerable argument over the provision of a site for a College building, which was terminated, not entirely to the satisfaction of well-wishers of the new institution, by the passing of an act (the Victoria College

Site &c. Act) in 1901, which empowered the Council to acquire part of a town reserve on Salamanca Road—six acres of hill, carrying with it a magnificent view and the certainty of great expense in development. The Government made a grant of £31,000 towards the cost of building, and the first portion of the present structure, designed by Messrs Penty & Blake, was opened on 30 March 1906 by Lord Plunket, then Governor of the Colony. A further portion, forming a wing at the rear of the Arts Building, was completed in March 1910. In 1919 the Government made a grant for the north wing, thus providing new and much-needed accommodation for the Library, as well as additional class-rooms, a Women's Common Room and a Tea Room. Into the wall of this wing, just outside the entrance, was built a stone for a memorial of those students of the College who had died in the Great War. They are also commemorated by the stained glass window and brasses in the Library, which were unveiled as part of the Silver Jubilee celebrations of 1924. The south wing was provided for by another Government grant made in 1921, to provide further accommodation for the science departments. This completed the buildings until the erection of the new Administration and Biology Blocks in 1937-9, also paid for by the Government through a grant of about £50,000; these last portions were designed by Messrs W. Gray Young and Francis H. Swan. The wooden gymnasium was built by public subscription in 1909, the tennis courts below being excavated by the students themselves in 1905.

FINANCE

The College has virtually no endowment in land, and none in money that is available for general purposes. The benefit of revenues derived from the Opaku Reserve in

Taranaki, to which it has laid claim, was by the Taranaki Scholarships Act, 1905, confined to the youth of Taranaki, who may be granted 'Taranaki Scholarships' on the results of the University Entrance Scholarship examination. Nearly all university activity in the Victoria University District therefore has depended and depends on Government finance, either through statutory grants or grants for special purposes. The early Queen's Scholarships crippled the College financially in its first years; an amending act of 1903 provided for six Junior and four Senior Scholarships of this type, but in 1906 the College was relieved of their payment, and in 1907, by an amending act to the Education Act, they were abolished. £4,000 per annum was obviously not enough for the administration of a university college, even if it had not been expanding, as this one was, and in 1905 an additional annual grant of £2,000 was instituted, for 'specialisation in Law and Science'—though, in reality, such specialisation does not seem to have been expected. A further increase of £3,000 was made in 1914 by the New Zealand University Amendment Act of that year, which readjusted the finances of all the colleges, plus a share of the 'National Endowment' amounting to upwards of £1,900. This Act consolidated all the grants apart from that from the National Endowment into a single annual grant of £9,000, which was again increased (from 1 April 1920) by the New Zealand University Amendment Act, 1919, by £2,500—of which £850 was a special grant for a chair of Education. A short act amending the College Act in 1923 gave the Council power to levy its own class fees without the previous approval of the Governor-in-Council. Still another University Amendment Act, in 1928, increased the statutory grant, apart from the special Education grant, to £11,750. From this

point the grant receded, as the Government instituted economies in the Depression ; in 1931 it was reduced to £9,431 18s., and the grant for the chair of Education was withdrawn ; in 1932 it became £7,350 and was made no longer statutory, but subject to annual vote. In 1934 it was increased to £7,800, in 1935 to £10,145 and later £12,166, and in 1936 to £14,320. In 1938, as the result of discussion on the relation of the University to the Public Service, the Government decided to make a new annual grant of £2,000, to found a Department of Political Science and Public Administration, thus in some sort fulfilling the wish expressed by Sir Robert Stout as long ago as 1886. In recent years consequent on representations made to the Minister by the Conference of University Colleges and the University of New Zealand substantial increases have been made to the annual grant which now stands at £50,050.

One partly endowed chair exists, the T. G. Macarthy Chair of Economics, which owes its origin to a grant of £10,000 made by the Trustees of the late T. G. Macarthy in 1915 ; owing to delay caused by the War, the chair was not actually founded till 1920. A chair of Agriculture was endowed by a gift of £10,000 from Sir Walter Buchanan in 1923, and filled in 1925. Auckland University College, however, had almost simultaneously founded a School of Agriculture, and both Colleges agreeing to join in founding the Massey Agricultural College at Palmerston North in 1927, the income derived from the Buchanan Trust funds was thenceforth made over to the new College, to which the chair was also transferred. The sum of £10,000 was also, in 1915, left to the College under the will of Sarah Anne Rhodes, to provide for the education of women ; in 1921 the Council arranged with the Trustees to

devote the income to the fostering of Home Science, through the institution of a Sarah Anne Rhodes Fellowship or Scholarship; in 1930 the regulations were altered to provide for a Travelling Fellow and/or a Lecturing Fellow. Monetary gifts and benefactions have provided a number of other scholarships of varying value, for both men and women students⁵. Between 1933 and 1937 the Carnegie Corporation of New York made generous allocations to the Library, in money or in kind, of \$32,500. The greatest benefaction ever received by the College, however, was the £77,500 left by Mr William Weir in 1926, to provide and maintain a hostel for men students.

HOSTELS

Great need for hostels had always been felt, both as an aid to the corporate life of students and as a solution to the problem of getting adequate board and lodging in Wellington, and as a Government subsidy was by statute payable on voluntary contributions to the University or its Colleges, the Weir Bequest seemed of even greater value than it actually was. Plans were therefore drawn up on a large scale by Messrs W. Gray Young and Francis H. Swan for a building on a good site near the College. A University Amendment Act of 1928, however, limited the Government subsidy on any bequest to a maximum of £25,000, and with the coming of the depression the Government refused to pay any subsidy at all. This caused substantial modifications of the plans, even after the foundations had been laid, and the completion of the structure had to be indefinitely postponed. Weir House was opened by the Governor-General, Lord Bledisloe, on 6 March 1933. It accommodates 88 students. The first Warden was Dr I. A. Henning; and the first Matron, Miss I. K. Irvine.

⁵See pp. 104 ff. above, 183 ff. below.

No similar large-scale provision for women students has yet been attainable. The generosity of the Society of Friends in 1915 provided a specially-built hostel for Training College students, where those who were students of both institutions could find accommodation; but when the Training College was closed during the depression this hostel was also closed. A valuable beginning was made in 1909 by the Women Students' Hostel Society, which, though not officially connected with nor under the control of the College, has carried on since that date Victoria House, 282 The Terrace, with accommodation for 39 students. This Society in 1938 acquired a second house, 216 The Terrace, which is similarly maintained, accommodating 16. There exists still, however, a considerable problem, which urgently needs solution.

GENERAL DEVELOPMENT

In spite of the terms of the original Victoria College Act, 1897, and in spite of the fact, also, that its full-time students were always in a small minority, the College from the first built up a fairly vigorous and independent corporate life. Its independence and vitality were shown in the University Reform movement of 1908-14, of which professors of the College were among the leaders, supported strongly by their own students. So far as the College was concerned, this resulted in certain changes in the constitution of the Council, giving the professors direct representation thereon (the Victoria College Amendment Act, 1914), and in larger Government grants (the New Zealand University Amendment Act, 1914). Strong, though unsuccessful, resistance also was shown to the public outcry for the victimisation of a professor of German blood in 1915; in the War 620 students and old

students served with the Forces, and 150 sacrificed their lives. During and after the War the movement for University reform was carried on, both by the Board of Studies set up by the University Amendment Act, 1914, and by University teachers, mainly of Victoria and Canterbury Colleges. This movement centred round the demand for the reform of the examining system by the abolition of examinations conducted from abroad, as recommended by the Royal Commission of 1879 ; round the distribution of 'special schools,' in which this College was not directly interested to any great extent ; and round the later demand for the creation of four separate universities. The upshot was the second Royal Commission on the University, which reported in 1925 in favour of the creation of a federal system as a transitional measure of indeterminate duration. Such a system was established, very imperfectly, by the New Zealand University Amendment Act, 1926, and succeeding Acts ; under the 1926 Act the College became in status a constituent college of a federal, and no longer merely an affiliated college of an examining, University. Its internal administration was made more rational by the appointment in 1938 of a Principal, provided for by the consolidated Victoria University College Act, 1933, but postponed pending the College's emergence from the period of straitened finance. Professor T. A. Hunter became the first Principal.

Student organisation, and student thought on the problems of the College and the University, are practically coeval with the College. The 'Victoria College Students' Society' was founded on 6 May 1899 at a meeting held at the Girls' High School. A new constitution was passed in 1903 and the name of the Society altered to 'Students' Association'. It was the Association which in this year

moved for the acquisition of a coat-of-arms for the College; it raised money vigorously towards the cost of the College buildings, and in other ways played a great part in the critical formative years of the corporate body. *The Spike, or Victoria University College Review*, was first published in 1902. *The Old Clay Patch*, a collection of verse by students, appeared in 1910, and a second edition in 1920. The Debating Society was founded in 1899, and round the central association rapidly grew most of the College clubs now in existence.

ADULT EDUCATION

Adult Education has been provided for, to the best of the College's ability, since 1915, when the Workers' Educational Association, then at the outset of its work in New Zealand, established three tutorial classes in Wellington.

The movement grew on lines rather different from the English model, being limited by inadequate financial resources (its main recourse, in spite of support from public bodies, being to Government grants) and the consequential small extent to which it could employ tutors for the wide country districts, both in the North and in the South Island (Nelson and Marlborough). It has therefore had to work in the country largely by means of 'box courses', and 'discussion courses' carried on by post, a tutor-organiser covering what ground he could. In 1932 the Government grant was withdrawn altogether, and though in 1934 the movement was saved by a tapering grant from the Carnegie Corporation, the Association could no longer maintain a full-time tutor-organiser. With the return of the Government grant in 1936 it was possible to extend the work once more, and first one tutor-organiser for country work was appointed in 1936, and then a second in 1938. Two additional grants were made by the Government in 1937, one specifically for tutorial work in Public Works Camps. Meanwhile other agencies for adult education had come into being, and it was felt that some co-ordination of effort and expenditure was necessary. At the request of the Minister of Education, the Hon. P. Fraser, a committee was set up by the University Senate to go into the matter, and as a result of its report there was formed in 1938 a Council of Adult Education, through the agency of which it was intended to put the work of the W.E.A., among other organisations, on a new and much more satisfactory basis all over the country.

SEAL AND ARMS

The College seal is lozenge shaped with a representation of a figure of Queen Victoria standing crowned and

sceptred with the legend 'Seal of the Victoria University College, Wellington, New Zealand, 1897.' The motto is *Sapientia magis auro desideranda.*

The Arms are vert on a fesse engrailed between three crowns or, a canton azure charged with four estoilles argent (in the form of the Southern Cross). The Crest is that of the Duke of Wellington.

STUDENT'S ASSOCIATION

The Victoria University College Students' Association (Inc.) is the official link between the students of the College and the College authorities. All students of the College are automatically members of the Students' Association. In addition, all graduates of the University of New Zealand, and all persons who have attended lectures at any University or University College for at least one year are, subject to payment of the requisite fee, entitled to membership of the Students' Association.

The objects of the Students' Association are to deal with all matters in which the students as a body are interested; to promote sports and social activities amongst its members; the control of official publications; to conduct the Easter Inter-University Tournament and the annual Capping Celebrations; and to conduct all other student activities designed to promote student interest and welfare.

Student activities are controlled by the Students' Association Executive, an annually elected body of twelve members of the Association. The various cultural, sporting, social and intellectual interests of the student body are catered for by Clubs and Societies affiliated to the Students' Association.

Full information as to any matters affecting the Students' Association may be obtained on application to the Executive Room.
