A thesis candidate must offer 185/13.

Full reading lists are issued on all options.

**IMPORTANT :** No student should contemplate Honours in English in one year who is not devoting full time to University studies. Part-time students are recommended to spread the course over two years.

**PRE-REQUISITES FOR M.A. IN ENGLISH :** Where English is offered as a half subject in conjunction with another language, Stage III in that language is a pre-requisite. Where English is offered as a single subject, a Stage I unit of a language is pre-requisite. Students transferring from or to this college for M.A. work in English should note that this last pre-requisite is allowable only to students whose names are on the books of this college. In framing a B.A. course a prospective honours candidate should regard the one-unit language pre-requisite as a minimum requirement only; a working knowledge of another literature is of great value. Students not advancing a language beyond Stage I should advance another related subject (e.g. history or philosophy) to Stage II and preferably Stage III. Students who can offer no classical language are strongly recommended to take Greek History Art and Literature.

## ENGLISH CLASS LIBRARY

The English class library was established in 1941 by a bequest from the late Professor Hugh Mackenzie, foundation Professor of English in the college, and is housed in Room 4 (Mr Cochran's study). It contains several thousand useful volumes of texts and critical works and is open to all members of the Stage II, III and Honours classes. Conditions on which books may be borrowed are set out on the Department Notice Board.

M.A. AND HONOURS 275, 275/1, 275/2, 275/3,  
275/4, 275/5

For the 1955 session the work of this class will cover, though not necessarily be confined to, the first four courses mentioned below. Students are required to take these four courses and in addition to prepare an empirical thesis on an approved subject. The value to be assigned to the thesis is equivalent to the total marks assigned to the four written papers. Each student is required to consult the Professor before finalizing his courses, since alternative options in Occupational Psychology and Psychometrics may under certain circumstances be available.

Practical work is required from all students. This work may be done concurrently with, or subsequently to, preparation for papers, but the amount of practical work

required will depend partly upon the exact nature of the thesis topic chosen for investigation and partly upon certain minimum requirements for all students doing M.A. Psychology. Practical work must, in every case, be completed before the thesis is ready for presentation.

275 (a) GENERAL THEORY: Study of some of the more important problems of psychology with emphasis on historical development.

Text Books: Boring, *History of Experimental Psychology*; Hebb, *The Organization of Behaviour*; Marx, *Psychological Theory*; Parsons and Shils, *Toward a General Theory of Action*.

275/4 (e) OCCUPATIONAL PSYCHOLOGY.

275/5 (f) PSYCHOMETRICS.

PRACTICAL WORK: A seminar may be held at regular intervals for the planning and discussion of practical work. All students are expected to attend and to participate in the discussion of the results of group or individual investigations.

## ADDITIONAL COURSES

The Department of Psychology offers special courses in Psychology in the School of Social Science, the School of Political Science and Public Administration, and the Post-Graduate Nurses' School. Admission to these courses is by arrangement with the Schools mentioned.

## DEPARTMENT OF HISTORY

Professor Wood

Dr J. C. Beaglehole      Dr Munz      Dr West  
Mrs Boyd

Courses at all stages are planned on the assumption that a reasonable standard of preliminary reading has been reached. Students are expected to collect reading lists for succeeding sessions, with advice for reading during the long vacation, from members of staff as soon as final examinations for the year are over.

All students are recommended to make frequent reference to atlases. Historical atlases such as *Philips' Historical Atlas* (Ramsay Muir) and Putzger's *Historischer Schul-Atlas* will be found particularly useful; also the series of sketch maps given by Horrabin, *An Atlas of European History*. Robertson and Bartholomew, *Historical Atlas of Modern Europe* is good for the period 1789-1922.

## HISTORY I: 103, 104

Outlines of the history of European Civilization.

The work of this class comprises: (1) a general course of lectures on medieval Europe and a brief introduction

to modern history; (2) the special study of specified topics or periods by way of illustration; and (3) essay and seminar work. Topics for special study will be announced from time to time.

The course is planned on the assumption that students have a reasonable background of knowledge before the session begins. Vacation reading of a character preparatory to University work is therefore strongly recommended. Students are advised to procure some good general survey for the first part of the course. Fisher, *A History of Europe* is especially recommended, and Trevelyan, *History of England*, though other books of similar scope may be substituted.

It is extremely important, however, that such books should be supplemented by wider reading. The following are suggested as the type of book which might usefully form part of a systematic reading programme and of a student's library: Marvin, *The Living Past*; Stawell and Marvin, *The Making of the Western Mind*; Coulton, *Studies in Medieval Thought*, and *Medieval Panorama*; Power, *Medieval People*; Davis, *Medieval Europe*; Crump and Jacob, *Legacy of the Middle Ages*; Bryce, *The Holy Roman Empire*; Pirenne, *History of Europe from the Invasions to the Sixteenth Century*; Trevelyan, *History of England* and *English Social History*; Barraclough, *Factors in German History*; Taylor, *Course of German History*; Thomson, *Democracy in France*; Huddleston, *France and the French*; the *Pelican History of England*.

Students are urged to communicate with the Department for further particulars and for reading lists.

#### HISTORY II: 105, 106, 107

History of Europe and the expansion of Europe from the Renaissance to 1789.

The course will be planned on the assumption that

every member of the class has a reasonable background of historical knowledge: that is, an idea of the general course of European and Colonial history from the Renaissance to the Revolution, and also acquaintance with at least some of the major books and documents bearing on the period. Students are therefore strongly advised to undertake systematic reading before the opening of the academic year.

During the session, special study will be required of specified topics, which will include the following:—

(1) Tudor England with special reference to the influence of the Renaissance and Reformation on political, social and economic conditions; social and political ideas.

(2) A comparative study of France and England in the 18th century from the peace of Utrecht to the French revolution with special reference to political, social and economic conditions, and to political and social thought.

(3) The European background to overseas expansion; the colonisation of America with special reference to either Puritan New England, *or* the Spanish empire in America, *or* the American revolution.

Optional topics may be announced from time to time.

Lectures will be supplemented by essay and seminar work, which form a substantial part of the course.

Reading lists and further particulars may be obtained from the Department.

#### HISTORY III: 108, 109, 110

History of Europe since 1789; the expansion of Europe since 1783.

The course will be planned on the assumption that every member of the class has a reasonable background

of historical knowledge, with particular reference to the period since the French Revolution. Students are therefore strongly advised to undertake systematic reading before the opening of the academic year.

During the session special study will be required of specified topics, which will include the following:—

(1) The revolutionary and Napoleonic periods with special reference to political ideas and problems of government.

(2) The genesis of the Welfare State, with special reference to Great Britain in the 19th century.

(3) Comparative colonial policy since 1783.

Optional topics may be announced from time to time.

Lectures will be supplemented by essays and seminar work, which form a substantial part of the course.

Reading lists and further particulars may be obtained from the Department.

M.A. AND HONOURS: 258, 259, 260, 261, 262, 263,  
263/1/2/3

Students should consult the Professor at the beginning of the session, when hours of meeting will be arranged. So far as possible the class will be organised as a seminar. Its work covers the prescription for M.A. and Honours in History. This now calls for four papers and thesis, or for six papers, defined as follows:

258 Paper (a) British Constitutional History since 1485.

259 Paper (b) A special period or topic of British History to be prescribed from time to time. 1955: the 17th century.

and any two of the following:

260 Paper (c) The History of Australia, New Zealand and the Pacific Islands.

- 261 Paper (d) The History of the U.S.A. since 1783.
- 262 Paper (e) A topic or period of Medieval History to be prescribed from time to time. 1955: the 13th Century.
- 263 Paper (f) A period in the History of Political Ideas to be prescribed from time to time. 1955: European Political Ideas 800-1600.
- 263/1 Paper (g) The History of Russia since the accession of Peter the Great.

With the permission of the Professors of History and Political Science a candidate may substitute one or two of the papers for M.A. in Political Science for an equal number of the optional papers set out above, but the candidate will not be allowed at any time to count a paper so substituted towards a degree in Political Science.

For the thesis or dissertation there may be substituted a special topic to be studied with particular reference to specified documents and tested in two papers (h) 263/2 and (i) 263/3. 1955: The establishment of self-government in New Zealand in the light of contemporary British Colonial Policy.

The less accessible of the specified documents have been stencilled, and may be bought from the Department.

A short course will be given at the beginning of the session on historical method and writing, with special reference to thesis work. Students should become familiar with such books as Langlois and Seignobos, *Introduction to the Study of History*; Lambert, *The Nature of History*; Nevins, *Gateway to History*; Williams, *The Modern Historian*; Collingwood, *The Idea of History*. Other reading will be prescribed as required.

## MUSIC AND ART

The gift to the College in 1937 by the Carnegie Corporation of New York of an excellent electric gramophone and loud-speaker, together with upwards of a thousand carefully selected records, covering a very catholic range, has enabled regular musical recitals to be given throughout the college year. These are under the direction of a committee. Recitals are given both at mid-day and in the evenings, and programmes are posted on the Library notice-board.

A fine collection of books on art and of prints and photographs was also given by the Carnegie Corporation, in 1933, and is kept, with many additions, in the Art Room of the Library.

A valuable collection of records and music was in 1947 received from the British Council.

#### MATRICULATION

To matriculate a student must either be accredited or pass the Entrance Examination and make the following declaration: 'I do solemnly promise that I will obey the Statutes of the University, so far as they apply to me, and I hereby declare that I believe myself to have attained the age of sixteen years.'

*No examination passed by any student before he has made this declaration can count towards the keeping of terms or the qualifying for a Degree.*

*The last day for making the declaration is June 1.*

#### PROVISIONAL ADMISSION

The requirements for Provisional Admission and the regulations in connection with this form of Admission will be found in the New Zealand University Calendar.

Applications, accompanied by a fee of £2/10/- shall be made in any year not later than the first day of May or (with late fee) the first day of June. Applications from a student attending classes or from an exempted student

taking any subject in which terms are required shall be made to the Professorial Board of this College; in other cases to the Registrar of the University of New Zealand.

#### SUPERVISION OF COURSES

The Professorial Board supervises the courses of all students. Before enrolment in classes a record of the proposed course of study, signed by the \*Tutor of the Student or by the Dean of one of the Faculties of Arts, Science, Commerce, Law, must be in the hands of the Registrar. In the case of a student proceeding to one of the University degrees, this record shall state the complete course of study proposed for that degree; and subsequent departures (if any) from such proposed courses must be similarly recorded. Courses of students must comply with the statutes of the University of New Zealand and with the regulations thereunder drawn up by the Professorial Board of Victoria University College.

*Note.* In addition to ordinary enrolment requirements, all students enrolling at Victoria University College for the first time must report to the Liaison Officer and fill in a record card for him.

If at any time during the year a student desires to change his course or transfer to another University College, he must report to the Registrar.

Under the new B.A. and B.Sc. statutes the Professorial Board has approved the following courses and conditions :

#### B.A. DEGREE

I. The types of courses set out below are those which have received the approval of the Professorial Board as showing normal courses for the majority of candidates for the B.A. degree. It should, however, be understood that these courses are not mandatory, and that if, for

\* Head of the Department or his substitute.

special reasons, a type of course differing from these is proposed, it may receive the approval of the Professorial Board after consideration by the Committee mentioned below, which has been appointed to deal with such cases.

Where a reading knowledge of a foreign language or of two foreign languages is taken, the choice of the language or languages is to be made with the approval of the Tutor in consultation with the Head of the language department concerned. When a student who takes in his course a reading knowledge of two foreign languages has in the same year kept terms in regard to and passed the examination in both languages, he shall be credited with one language unit.

Where a reading knowledge of only one foreign language is taken, it shall be in addition to the nine units required for the B.A. degree.

*Type A. (Six Subject Degree).*

Six Stage I subjects.

One subject only to be taken to Stage III.

One other subject only to be taken to Stage II.

The six subjects must be chosen as follows:—

II. 1. A course chosen in any Type must be approved by the Departmental Heads of the Stage III subject or subjects.

2. (a) No student may be enrolled for Applied Mathematics III unless he has passed previously in Pure Mathematics II.

- (b) No student who has been credited with Psychology in the B.Sc. course may offer Psychology I as a subject of the B.A. course.
  - (c) No student who takes Greek language beyond Stage I shall be credited with Greek History, Art and Literature as a unit.
  - (d) No student will be deemed to have passed in Music I, Music II, or Music III, unless he satisfies the requirements of the examiner in paper (a) at each stage.
3. Until 1st January, 1954, students beginning a course for the B.A. Degree were entitled to do so under the Regulations for the B.A. Degree set out in Chapter XI, sections I to IX (inclusive) of the New Zealand University *Calendar* for 1949, but such students must complete the course for the B.A. Degree within five years of the date of commencement, or must then transfer to a course under the new regulations to complete their B.A. Degree.

  5. Special cases, including those involving undue hardship under the new regulations, shall be given separate consideration by a Committee consisting of the Principal and Dean of the Faculty with power to co-opt.

*Reading Knowledge of a Foreign Language:* The examination shall consist of one passage of a general and fairly simple nature to be translated into English without

the aid of a dictionary, and two or more passages connected with the Stage III subject or subjects to be translated into English with the aid of a dictionary.

- (d) The amount of practical work in a unit shall be not less than five hours or more than fifteen hours per week as determined by the Science Faculty, and may exceed the minimum laid down under the University Statute.
- (e) All courses approved in 1955 and all alterations to courses in 1955 shall conform to the regulations which came into force on 1st January, 1950.
- (f) Cases involving undue hardship under the new regulations shall be given separate consideration by a Committee consisting of the Principal and Dean of Science with power to co-opt.
- (g) The following are recognized prerequisites:

III until he has passed in Pure Mathematics I and Physics I.

- (ii) No student shall be enrolled in Physics III until he has gained terms in Pure Mathematics II.
- (iii) No student shall be enrolled in Radiophysics until he has passed in Physics II and Pure Mathematics I, and has kept terms in Pure Mathematics II.
- (iv) No student shall be enrolled in Applied Mathematics III until he has passed in Pure Mathematics II.
- (v) No student shall be enrolled in Mathematical Physics until he has passed in Physics II and Pure Mathematics II.
- (vi) No student shall be enrolled in Physics II until he has passed in Pure Mathematics I.

FOREIGN LANGUAGE READING KNOWLEDGE FOR B.A. AND  
ABILITY TO READ SCIENTIFIC WORKS IN A FOREIGN  
LANGUAGE FOR B.SC. AND M.SC.

These are separate and distinct matters.

*Foreign Language Reading Knowledge:* This is provided for under Clauses VI and XI of the B.A. statute (see U.N.Z. Calendar). Clause VI provides for a reading knowledge of *one* foreign language to be taken *in addition* to the nine units for the degree. A reading knowledge of *one* foreign language is not technically a subject for the degree and terms are not, therefore, necessary. Clause XI, on the other hand, includes a reading knowledge of *two* foreign languages as a subject for the degree. A candidate presenting as a subject a reading knowledge of two foreign languages must therefore keep terms in this "subject", and he

must satisfy the requirements as to both languages in the one year. If the candidate does this he will have passed in *one* unit for the degree and will need to pass in only eight additional units.

*Certificate of ability to read Scientific works in a Foreign Language:* This is authorised by Clause V of the B.Sc. statute pursuant to which the Professorial Board of this College has laid down the requirement set out above in paragraph 1 (a) under the heading B.Sc. degree. Clause VI of the M.Sc. statute (see U.N.Z. Calendar) imposes a similar requirement on candidates for the M.Sc. degree who have not passed Stage I of a foreign language approved by the Professorial Board. Compliance with the College B.Sc. requirement will satisfy the University M.Sc. requirements should the candidate later proceed to the M.Sc. degree. Neither the College B.Sc. requirement nor the University M.Sc. requirement involves the candidate's keeping terms before presenting himself for examination for a certificate. Entries for this examination close with the College Registrar on 30th June with 10/- entry fee, or within 21 days thereafter, with 15/- entry fee; provided that on payment of an additional fee of £1 5s 0d and subject to the approval of the Principal an entry may be accepted later than 21 days after 30th June.

#### TERMS

The keeping of terms is required in all subjects for (i) M.A., M.Sc., M.Com., B.A., B.Sc., LL.B., B.Com., Mus.B., (ii) Diplomas in Education, Journalism and Music, (iii) Intermediate Examinations, (iv) Professional Examinations in Law, (v) Certificates of Proficiency, and in certain subjects for the Diploma in Banking.

In general, terms will not be granted except in sub-

jects taught in the College (see list pages 131-2); if, however, a student has special reasons for taking a subject which is not taught at this College, but is taught at some other College, he may with the approval of the Professorial Boards of both Colleges be granted exemption from lectures and in that case arrangements will be made for him to be examined in the subject—see New Zealand University *Calendar*, Statute “Terms and Lectures” Clause III.

Under the University of New Zealand Statute “Terms and Lectures” terms granted in any stage or subject shall be for the year only unless otherwise directed by the Professorial Board of the student’s College. Pursuant to this provision the Professorial Board of the College has directed as follows:

- (i) In Roman Law, Constitutional Law, Jurisprudence, Conflict of Laws and International Law terms shall be for the year of granting only.
- (ii) In the subjects of Botany, Chemistry, Geography, Geology, Physics and Zoology terms shall be for the year of granting and the next following year only.

#### THE UNITED STATES EDUCATIONAL FOUNDATION IN NEW ZEALAND

##### TRAVEL GRANTS—FULBRIGHT PROGRAMME

The United States Educational Foundation in New Zealand invites applications annually for about 20 travel grants from New Zealand citizens of either sex who intend to study in the United States and who undertake to return to New Zealand when their studies are completed.

CATEGORIES AND QUALIFICATIONS REQUIRED IN EACH CATEGORY:

Grants will be allocated approximately as follows;

- (a) *11 to Graduate Students.* Applicants must already hold a University degree and be planning a regular course of at least an academic year at an American University.
- (b) *3 to Research Scholars.* Applicants should already have some professional standing in their chosen field and should be planning advanced work at an institution of higher learning, though not towards a degree.
- (c) *3 to Visiting Professors.* These grants will be limited to those who have been, or may expect to be, invited to teach at an American University.

Applications from candidates in Categories (b) and (c) offering projects covering an academic year will normally be preferred but shorter periods will be considered in special cases.

- (d) *3 to Primary and Post-Primary School Teachers.* Applicants should read the detailed information published in the Education Gazette referring specifically to awards in this category.

SELECTION: This will be based mainly on (a) academic record, (b) professional experience, where applicable, (c) personality, and (d) suitability of the candidate's project for the general purposes of the Fulbright Programme, which is designed to encourage international understanding and goodwill. The Foundation prefers to have a wide spread of fields of study in each Programme.

BENEFITS: These cover return fare from the grantee's hometown to the town in which the University of his choice in the U.S. is located.

FINANCIAL SUPPORT IN THE UNITED STATES: A candidate may apply for a travel grant in anticipation of securing a

scholarship in an American University, or otherwise arranging for his support while in the U.S., but no award can be made until this support is assured. The Foundation has no scholarships or dollars at its disposal but it believes that N.Z. graduates with a first class academic record could make personal application to an American University for a scholarship or a part-time teaching assistantship with reasonable hope of success.

The Foundation is willing to offer advice about scholarship aid on request. Those making enquiries should give particulars about their present standing and their proposed course in the United States.

**APPLICATIONS:** Applications are normally invited from June to the end of July in each year from persons who would be interested in studying in the United States of America in the following year.

Forms are available from the United States Educational Foundation in New Zealand, Box 1190, Wellington, to which enquiries for additional information should be addressed.

## HISTORICAL NOTE

VICTORIA UNIVERSITY COLLEGE was the last of the four main constituent colleges of the University of New Zealand to be established. It thus completed, apart from special provision for agricultural teaching, and within thirty years of the foundation of the first college, the general structure of the country's institutions for university work. Otago University was founded by a provincial ordinance of 1869, and was followed by the University of New Zealand set up by the general Legislature under the New Zealand University Act of 1870. The intention of the Legislature was that the two universities should coalesce, but this proved impracticable, and it was not till after many negotiations that Otago University agreed to abandon its independent status and affiliate to a purely examining university. This University, planned on the model of the University of London, was provided for by a second act, the New Zealand University Act of 1874. To it were affiliated not only the University of Otago and Canterbury College (also founded and endowed by a provincial ordinance, in 1873) but a large number of secondary schools all over the Colony which were prepared to give instruction of university standard, undergo inspection by the University, and present candidates for its examinations. But all safeguards, such as inspection, broke down, and within a few years grave abuse of the system existed. Despite this situation, however, the University Senate thought both to maintain the standard of its degrees, and to secure universal respect for them, by excluding university teachers from examining, except for University entrance, and before the end of the first decade had arranged for all other examinations to be carried on from Great Britain.

Discontent, however, was widespread over the Colony,

not least among the professors of the two institutions of university rank. Driven by this discontent the Government, at the end of 1878, set up a Royal Commission to report upon the operations of the University and its relations with the secondary schools, 'and upon the best means of bringing secondary and higher education within the reach of the youth of both sexes.' The Commission made its main report regarding the University in July 1879, supplying a draft Bill which incorporated its recommendations in the following year. It recommended that the system of affiliation as it then existed should be abolished, and that two further university colleges should be immediately set up, at Auckland and Wellington, with sites and buildings provided by the Government and endowment in land or money of £4,000 each per annum. It also recommended that the four resulting colleges should not be affiliated, but should form a federal University, the examinations of which should be conducted in the Colony, and ordinarily by the teachers of the University. 'Our desire is,' added the Commissioners, 'that each college may acquire a marked individuality, such as to demand recognition in the form of the examinations, and to secure for it a special reputation, which may at some future day be the foundation of its success as a separate and independent University.'

Unfortunately this report was made just at the outset of the great depression of the eighties, so that there were added to natural inertia what seemed to be sound economic reasons for doing nothing. Nevertheless a college was established in a small way at Auckland by the Auckland University College Act, 1882, and by 1887 the old system of affiliation of secondary schools had disappeared. It was made clear that only university colleges could hence

forth be affiliated. But nothing was done for Wellington—though the need there was demonstrably as great as that in any other part of the colony—until in 1887 Sir Robert Stout, then Premier, introduced his 'Wellington University College Bill,' to found a college serving the Wellington, Hawke's Bay and Taranaki districts. This Bill handed over the Government departments of science and the Colonial Museum and their staffs to the new college, and made Sir James Hector, the Director of the Geological Survey, who was already Chancellor of the University, its Warden; £1,500 extra per annum was to be granted. It was Stout's hope that the Wellington college, being at the seat of government and of the Court of Appeal, might specialise in the teaching of law, political science, and history, as well as in some departments of science. The Bill passed the House of Representatives, but was shelved by the Legislative Council. A new ministry coming into office in 1888, the matter lapsed for seven more years, in spite of the constant urgings of the University Senate and Court of Convocation. In 1894 Stout again came forward with a 'Middle District of New Zealand University College Bill'—the Middle District now comprising not merely Wellington, Hawke's Bay and Taranaki, but Nelson, Marlborough and Westland as well. No provision could be made in a private member's bill for the expenditure of money, and though the Bill was finally passed and the Government even appointed certain members of a college council, no further step was taken. The only reserves ever set apart in the Middle District for the endowment of university education were in Taranaki.

The final step was taken by Mr Seddon, the Premier, on his return from the Diamond Jubilee celebrations. His Victoria College Act, passed on 22 December 1897,

founded the College 'in commemoration of the sixtieth year of the reign of Her Majesty Queen Victoria.' It was to be a Liberal foundation, bringing university education within the reach of the working classes through direct contact with the primary schools; to ensure ultimate government control any land granted to the College was to remain vested in the Crown, and the table of College fees was subject to Crown approval. The relation of the College to the schools was fixed by the establishment of a system of 'Queen's Scholarships.' These scholarships were to be six in number, to be awarded to children of either sex under the age of 14 years on the results of an examination conducted by the College Council, which children were then to receive two years of secondary and three years of university instruction. The scholarships were payable out of the annual government grant to the College of £4,000; this grant, apart from the prospective income from a parcel of land of 4,000 acres reserved by the Act in the Nukumarū Survey District, and from fees—which were made exceptionally low—was the College's sole income. To add democratic to government control, the governing body of the College, the Council, was to consist of three members appointed by the Governor-in-Council, three elected by the members of the General Assembly resident in the University District, three elected by graduates of the College, either by examination or *ad eundem*, when their number reached thirty (until then by all graduates in the district with a British University degree), three by certificated school-teachers, three by Education Boards, and one by the Professorial Board of the College (no professor or lecturer being eligible for election). The first Chairman of the Council was Mr J. R. Blair (1898-9); he was followed by Sir Robert Stout (1900-01).

As an initial step, the Council decided to found four chairs, and the following professors were appointed: *Classics*, John Rankine Brown<sup>1</sup>; *English Language and Literature*, Hugh Mackenzie<sup>2</sup>; *Chemistry and Physics*, Thomas Hill Easterfield<sup>3</sup>; and *Mathematics and Mathematical Physics*, Richard Cockburn Maclaurin<sup>4</sup>. The College was affiliated to the University in February 1899; early in that year the four professors arrived, and as soon as possible classes were organised and lectures begun. In the absence of a proper building the Council was offered by the Government the Premier's residence in Tinakori Road, then vacant; but this being thought unsuitable, arts classes were held in the Girls' High School, Pipitea Street, after school hours, and science classes in the Technical School in Victoria Street. The number of students in 1899 was 115, plus 9 exempted students.

On the basis thus laid the College as it exists at present was fairly steadily built up, though not without controversies and certain unhappy experiences. Additional chairs were founded from time to time, as follows: Modern Languages 1902, Biology 1903, Law (two chairs) 1906, Mental and Moral Philosophy 1907, Physics (separated from Chemistry) 1909, Economics (T. G. Macarthy Chair) 1920, Education 1920, History 1921, Geology 1921, Agriculture 1925-27, Political Science 1938; Social Science 1948. In 1945 Botany was separated from the Depart-

ment of Biology and in 1947 a Chair of Botany was established. In 1946 a Department of Music, in charge of a Senior Lecturer, was set up; and in the same year further provision was made within the Department of Geology for the teaching of Geography. In 1948 the Chair of Mental and Moral Philosophy was replaced by a Chair of Psychology, the Professor's departmental responsibility extending to Philosophy; and in 1950 the separation of Psychology and Philosophy was completed by the creation of a Chair of Philosophy. In 1951 a Department of Accountancy, headed by a Senior Lecturer, was created. Chiefly in the 1920's and later the separate departments were strengthened by the appointment of full-time, and in certain cases part-time, lecturers. In 1953 Geography was separated from Geology and a Chair of Geography was established.

The governing body of the College was altered by the Victoria College Amendment Act, 1914, to comprise two members appointed by the Governor-in-Council, two appointed by the Professorial Board, one appointed by the Wellington City Council, and members elected as follows : Four by the District Court of Convocation, two by members of Education Boards, one by the governing bodies of secondary schools, two by primary school-teachers, one by teachers in secondary and day technical schools. Under the Victoria University College Act, 1933, one of the representatives of the Professorial Board was to be the Principal, whenever appointed. Student representation on the Council was provided for in 1938, by a section of the Statutes Amendment Act, which added a member to be appointed by the Executive of the Students' Association. By this Act, also, the Council was freed from the necessity of having its by-laws approved by the Governor-General.

In 1946 a section of the Statutes Amendment Act made provision for a full-time Principal. In 1947 The Victoria University College Amendment Act provided for an increase from one to two in the number of members of the Council appointed by the Professorial Board and for another member of the Council to be elected by the Teaching Staff.

#### THE BUILDINGS

For some time after the passing of the Victoria College Act there was considerable argument over the provision of a site for a College building, which was terminated, not entirely to the satisfaction of well-wishers of the new institution, by the passing of an act (the Victoria College Site &c. Act) in 1901, which empowered the Council to acquire part of a town reserve on Salamanca Road—six acres of hill, carrying with it a magnificent view and the certainty of great expense in development. The Government made a grant of £31,000 towards the cost of building, and the first portion of the present structure, designed by Messrs Penty & Blake, was opened on 30 March 1906 by Lord Plunket, then Governor of the Colony. A further portion, forming a wing at the rear of the Arts Building, was completed in March 1910. In 1919 the Government made a grant for the north wing, thus providing new and much-needed accommodation for the Library, as well as additional class-rooms, a Women's Common Room and a Tea Room. Into the wall of this wing, just outside the entrance, was built a stone for a memorial of those students of the College who had died in the Great War. They are also commemorated by the stained glass window and brasses in the Library, which were unveiled as part of the Silver Jubilee celebrations of 1924. The south wing

was provided for by another Government grant made in 1921, to provide further accommodation for the science departments. This completed the buildings until the erection of the new Administration and Biology Blocks in 1937-9, also paid for by the Government through a grant of about £50,000; these last portions were designed by Messrs W. Gray Young and Francis H. Swan. The wooden gymnasium was built by public subscription in 1909, the tennis courts below being excavated by the students themselves in 1905.

In 1951 the Government provided funds to enable the College to purchase and alter a house in Kelburn Parade. This house has afforded some slight easing of the College's urgent accommodation needs.

At the end of 1953 the Government approved of a grant for a third storey to the Biology Block. This additional storey was completed in 1954 and provides most welcome relief.

#### FINANCE

The College has virtually no endowment in land, and none in money that is available for general purposes. The benefit of revenues derived from the Opaku Reserve in Taranaki, to which it has laid claim, was by the Taranaki Scholarships Act, 1905, confined to the youth of Taranaki, who may be granted 'Taranaki Scholarships' on the results of the University Entrance Scholarship examination. Nearly all university activity in the Victoria University District therefore has depended and depends on Government finance, either through statutory grants or grants for special purposes. The early Queen's Scholarships crippled the College financially in its first years; an amending act of 1903 provided for six Junior and four Senior Scholarships of this type, but in 1906 the College was relieved of

their payment, and in 1907, by an amending act to the Education Act, they were abolished. £4,000 per annum was obviously not enough for the administration of a university college, even if it had not been expanding, as this one was, and in 1905 an additional annual grant of £2,000 was instituted, for 'specialisation in Law and Science'—though, in reality, such specialisation does not seem to have been expected. A further increase of £3,000 was made in 1914 by the New Zealand University Amendment Act of that year, which readjusted the finances of all the colleges, plus a share of the 'National Endowment' amounting to upwards of £1,900. This Act consolidated all the grants apart from that from the National Endowment into a single annual grant of £9,000, which was again increased (from 1 April 1920) by the New Zealand University Amendment Act, 1919, by £2,500—of which £850 was a special grant for a chair of Education. A short act amending the College Act in 1923 gave the Council power to levy its own class fees without the previous approval of the Governor-in-Council. Still another University Amendment Act, in 1928, increased the statutory grant, apart from the special Education grant, to £11,750. From this point the grant receded, as the Government instituted economies in the Depression; in 1931 it was reduced to £9,431 18s., and the grant for the chair of Education was withdrawn; in 1932 it became £7,350 and was made no longer statutory, but subject to annual vote. In 1934 it was increased to £7,800, in 1935 to £10,145 and later £12,166, and in 1936 to £14,320. In 1938, as the result of discussion on the relation of the University to the Public Service, the Government decided to make a new annual grant of £2,000\*, to found a Department of Politi-

cal Science and Public Administration, thus in some sort fulfilling the wish expressed by Sir Robert Stout as long ago as 1886. In recent years consequent on representations made to the Minister by the Conference of University Colleges and the University of New Zealand substantial increases have been made to the annual grant for general purposes. In 1948 a University Grants Committee was set up by the N.Z. University and a system of Block Grants to the University Colleges was introduced for general purposes, covering a five year period. The Grant for this University College for 1955 is £173,115.

In 1948 the Government agreed to establish a School of Social Science and made a grant for the Professor's salary. The Council appointed Mr D. C. Marsh, M.Com. (Birmingham) as the first Professor in charge of the school.

One partly endowed chair exists, the T. G. Macarthy Chair of Economics, which owes its origin to a grant of £10,000 made by the Trustees of the late T. G. Macarthy in 1915 ; owing to delay caused by the War, the chair was not actually founded till 1920. A chair of Agriculture was endowed by a gift of £10,000 from Sir Walter Buchanan in 1923, and filled in 1925. Auckland University College, however, had almost simultaneously founded a School of Agriculture, and both Colleges agreeing to join in founding the Massey Agricultural College at Palmerston North in 1927, the income derived from the Buchanan Trust funds was thenceforth made over to the new College, to which the chair was also transferred. The sum of £10,000 was also, in 1915, left to the College under the will of Sarah Anne Rhodes, to provide for the education of women ; in 1921 the Council arranged with the Trustees to devote the income to the fostering of Home Science, through the institution of a Sarah Anne Rhodes Fellow-

ship or Scholarship ; in 1930 the regulations were altered to provide for a Travelling Fellow and/or a Lecturing Fellow. Monetary gifts and benefactions have provided a number of other scholarships of varying value, for both men and women students<sup>5</sup>. Between 1933 and 1937 the Carnegie Corporation of New York made generous allocations to the Library, in money or in kind, of \$32,500. The greatest benefaction ever received by the College, however, was the £77,500 left by Mr William Weir in 1926, to provide and maintain a hostel for men students.

#### HOSTELS

Great need for hostels had always been felt, both as an aid to the corporate life of students and as a solution to the problem of getting adequate board and lodging in Wellington, and as a Government subsidy was by statute payable on voluntary contributions to the University or its Colleges, the Weir Bequest seemed of even greater value than it actually was. Plans were therefore drawn up on a large scale by Messrs W. Gray Young and Francis H. Swan for a building on a good site near the College. A University Amendment Act of 1928, however, limited the Government subsidy on any bequest to a maximum of £25,000, and with the coming of the depression the Government refused to pay any subsidy at all. This caused substantial modifications of the plans, even after the foundations had been laid, and the completion of the structure had to be indefinitely postponed. Weir House was opened by the Governor-General, Lord Bledisloe, on 6 March 1933. It accommodates 88 students. The first Warden was Dr I. A. Henning ; and the first Matron, Miss I. K. Irvine.

No similar large-scale provision for women students

<sup>5</sup>See pp. 162-195

has yet been attainable. The generosity of the Society of Friends in 1915 provided a specially-built hostel for Training College students, where those who were students of both institutions could find accommodation; but when the Training College was closed during the depression this hostel was also closed. A valuable beginning was made in 1909 by the Women Students' Hostel Society, which, though not officially connected with nor under the control of the College, has carried on since that date Victoria House, 282 The Terrace, with accommodation for 39 students. This Society in 1938 acquired a second house, 216 The Terrace, which is similarly maintained, accommodating 16. Another hostel, not officially connected with the College, has been established at 31, Messines Rd. under the auspices of the Student Christian Movement and this hostel accommodates thirty women students. There exists still, however, a considerable problem, which urgently needs solution.

#### GENERAL DEVELOPMENT

In spite of the terms of the original Victoria College Act, 1897, and in spite of the fact, also, that its full-time students were always in a small minority, the College from the first built up a fairly vigorous and independent corporate life. Its independence and vitality were shown in the University Reform movement of 1908-14, of which professors of the College were among the leaders, supported strongly by their own students. So far as the College was concerned, this resulted in certain changes in the constitution of the Council, giving the professors direct representation thereon (the Victoria College Amendment Act, 1914), and in larger Government grants (the New Zealand University Amendment Act, 1914). Strong, though unsuccessful, resistance also was shown to the

public outcry for the victimisation of a professor of German blood in 1915 ; in the War 620 students and old students served with the Forces, and 150 sacrificed their lives. During and after the War the movement for University reform was carried on, both by the Board of Studies set up by the University Amendment Act, 1914, and by University teachers, mainly of Victoria and Canterbury Colleges. This movement centred round the demand for the reform of the examining system by the abolition of examinations conducted from abroad, as recommended by the Royal Commission of 1879 ; round the distribution of 'special schools,' in which this College was not directly interested to any great extent ; and round the later demand for the creation of four separate universities. The upshot was the second Royal Commission on the University, which reported in 1925 in favour of the creation of a federal system as a transitional measure of indeterminate duration. Such a system was established, very imperfectly, by the New Zealand University Amendment Act, 1926, and succeeding Acts ; under the 1926 Act the College became in status a constituent college of a federal, and no longer merely an affiliated college of an examining, University. Its internal administration was made more rational by the appointment in 1938 of a Principal, provided for by the consolidated Victoria University College Act, 1933, but postponed pending the College's emergence from the period of straitened finance. Professor T. A. Hunter became the first Principal.

Student organisation, and student thought on the problems of the College and the University, are practically coeval with the College. The 'Victoria College Students' Society' was founded on 6 May 1899 at a meeting held at the Girls' High School. A new constitution was passed

in 1903 and the name of the Society altered to 'Students' Association'. It was the Association which in this year moved for the acquisition of a coat-of-arms for the College; it raised money vigorously towards the cost of the College buildings, and in other ways played a great part in the critical formative years of the corporate body. *The Spike, or Victoria University College Review*, was first published in 1902. *The Old Clay Patch*, a collection of verse by students, appeared in 1910, and a second edition in 1920. The Debating Society was founded in 1899, and round the central association rapidly grew most of the College clubs now in existence.

In 1949 the College celebrated its Jubilee. There were official ceremonies, re-unions arranged by most of the College clubs and the laboratories and departments gave displays of their work. All these functions were successful and were enjoyed by many past students, a number of whom had been present at the opening of the College in 1899. A Committee successfully appealed for funds amounting to £35,000 for a Students Union Building, towards the cost of which the Government provides a liberal subsidy.

The following volumes were published :

*Victoria University College* by J. C. Beaglehole.

*The Old Clay Patch* (Third Edition). Edited by a Committee.

*The Spike: Golden Jubilee Number*. Edited by R. W. Burchfield.

Some years ago it was suggested that the College could not be developed on the present site; but after full investigation the Council decided that it would be in the best interests of higher education for the College to remain in Wellington if the site could be extended. In 1949 a

satisfactory agreement was reached between the City Council and the Government with regard to exchange of Crown Land for part of the Town Belt and legislation was passed, whereby under the Reserves & Other Lands Disposal Act, 1949, portion of the Wellington Town Belt immediately adjoining the Victoria University College site was transferred to the College. This additional area of 13 acres, with the present land, will provide an excellent site for the College.

In 1954 a grant of £3,500 was made by the Government to assist in the development of Te Aro Park as a College playing field.

## ADULT EDUCATION

Adult Education has been provided for, to the best of the College's ability, since 1915, when the Workers' Educational Association, then at the outset of its work in New Zealand, established three tutorial classes in Wellington. The movement grew on lines rather different from the English model, being limited by inadequate financial resources (its main recourse, in spite of support from public bodies, being to Government grants) and the consequential small extent to which it could employ tutors for the wide country districts, both in the North and in the South Island (Nelson and Marlborough). It has therefore had to work in the country largely by means of 'box courses', and 'discussion courses' carried on by post, a tutor-organiser covering what ground he could. In 1932 the Government grant was withdrawn altogether, and though in 1934 the movement was saved by a tapering grant from the Carnegie Corporation, the Association could no longer maintain a full-time tutor-organiser. With the return of the Government grant in 1936 it was possible to extend the work once more, and first one tutor-organiser for country work was appointed in 1936, and then a second in 1938. Two additional grants were made by the Government in 1937, one specifically for tutorial work in Public Works Camps. Meanwhile other agencies for adult education had come into being, and it was felt that some co-ordination of effort and expenditure was necessary. At the request of the Minister of Education, the Hon. P. Fraser, a committee was set up by the University Senate to go into the matter, and as a result of its report there was formed in 1938 a Council of Adult Education, through the agency of which it was intended to put the work of the

W.E.A., among other organisations, on a new and much more satisfactory basis all over the country.

In 1945 the Council of Adult Education set up a Consultative Committee (Mr W. H. Cocker, Chairman) to report on the problems of Adult Education. The report was published in 1947 under the title *Further Education for Adults*. As one result of this report the Adult Education Act, 1947, was passed. This set up a National Council of Adult Education with much wider powers and four Regional Councils connected with the Constituent Colleges of the University. Thus Adult Education entered on a new period of development.

#### SEAL AND ARMS

The College seal is lozenge shaped with a representation of a figure of Queen Victoria standing crowned and sceptred with the legend 'Seal of the Victoria University College, Wellington, New Zealand, 1897.' The motto is *Sapientia magis auro desideranda*.

The Arms are vert on a fesse engrailed between three crowns or, a canton azure charged with four estoilles argent (in the form of the Southern Cross). The Crest is that of the Duke of Wellington.

## STUDENTS' ASSOCIATION

The Victoria University College Students' Association (Inc.) is the official link between the students of the College and the College authorities. All students of the College are members of the Students' Association, and any person who has attended at any University College in New Zealand or elsewhere for the purpose of taking lectures or pursuing a course of study prescribed by the University or University College for at least one year and has so attended not later than two years prior to the commencement of the financial year during which application is made for membership of the Association may become a member by paying the Students' Association fee.

The objects of the Students' Association are to deal with all matters in which the students as a body are interested; to promote sports and social activities amongst its members; to control official publications; to conduct the Easter Inter-University Tournament and the annual Capping Celebrations; and to conduct all other student activities designed to promote student interest and welfare.

Student activities are controlled by the Students' Association Executive, an annually elected body of thirteen members of the Association. The various cultural, sporting, social and intellectual interests of the student body are catered for by Clubs and Societies affiliated to the Students' Association.

Full information as to any matters affecting the Students' Association may be obtained on application to the Executive Room.
